Trial By Fire And Water The Medieval Judicial Ordeal:

Trial by Fire and Water Robert Bartlett, 1988 An examination of the workings of trial by ordeal from its first appearance in the barbarian law codes tracing its use by Christian societies to its last use as a test for witchcraft in modern Europe and America **Trial by fire and water** ,1988 *Trial by Fire and Water* Robert J. Bartlett, 1990 *Law, laity and solidarities* Pauline Stafford, Janet L. Nelson, Jane Martindale, 2020-01-03 The primary focus of this collection by leading medieval historians is the laity in particular the ideas and ideals of lay people The contributors explore lay attitudes as expressed in legal cases charters chronicles and collective activities Highlights the centrality of kinship whilst stressing its limitations as an all purpose social bond Ranges chronologically and geographically from the seventh century to the eve of the Reformation from Western Britain to papal and urban Italy from Carolingian dynastic politics to the decline of medieval pilgrimage in the sixteenth century and from the courts of twelfth century France to the fifteenth century wards of London Vitreous Vitae Ashley J. Laverock, 2024-11-11 In *Vitreous Vitae* St Margaret of Antioch in Thirteenth Century Stained Glass Ashley J Laverock considers the representation of the virgin martyr St Margaret in thirteenth century stained glass windows in Europe These windows appeared at a moment when Margaret s cult was expanding but before the motif of the saint with the ragon became normative They offer insight into the rich narrative potential of Margaret s life in a monumental medium seen by wide audiences Examining these windows not only reveals shared emphases on Margaret s imitatio Christi corporeal suffering and encounters with the dragon and demon but also shows how distinct site specific hagiographies of Margaret were tailored to each church s context Multi faceted Margarets contributed to the wider cult of the saint **The Road to Justice: The Bible and the law as cornerstones of civilisation and culture** Eltjo JH Schrage, Jan Adriaan van der Walt, Glynis van der Walt, Hashali Hamukuaya, 2023-10-24 The relationship between art Christian culture and the law often receives attention It is trite that law influences all human lives as well as culture and art The law however does not only provide a context within which art and culture can develop but it is also the cornerstone of civilisation and culture On the other hand we must contemplate whether civilisation and culture are necessary conditions for a legal system This book consists of a compilation of essays narrating the influence of principles from the Bible on which the Christian belief is premised and practised by Christians worldwide on law and on culture Consideration is given to the foundation of the law on different and well known Biblical texts The interplay between Christian principles vis vis the law and culture is considered and unpacked in this research In addition copies of well known art depicting scenes from the Bible enhance each chapter The main author the late Prof Eltjo Schrage passed away shortly before the book was published with the assistance of Prof Jan Adriaan van der Walt Dr Glynis van der Walt and Dr Hashali Hamukuaya **Proof, Evidence and Hate Crime** Tshepo Bogosi Mosaka, 2025-07-18 Proof is the property of a disputed fact being established inferentially from an extant fact This book explicates the structural components of this phenomenon in the context of hate crimes across various jurisdictions

around the world It departs from the orthodox conception of evidence and proof as being a general value neutral or non normative and epistemic subject and offers a relativistic conception of this area of law The core argument is that proof is both semantically and methodologically determined by three conditions of materiality process and probativity This argument is then justified by the context specific application of this relativistic theory of proof to hate crimes This theoretical application of proof is sustained throughout the book using multiple examples and illustrations of hate crimes around the world The discussion both at the level of proof and hate crimes while focusing on the grounds of race religion and ethnicity specifically is framed in jurisprudential cross jurisdictional and interdisciplinary terms The book will be of interest to academics and researchers working in the areas of criminal law legal philosophy and procedural law

The Transformation of the Irish Church in the Twelfth and Thirteenth Centuries Marie Therese Flanagan, 2010 The twelfth century saw a wide ranging transformation of the Irish church a regional manifestation of a wider pan European reform movement This book the first to offer a full account of this change moves away from the previous concentration on the restructuring of Irish dioceses and episcopal authority and the introduction of Continental monastic observances to widen the discussion It charts changes in the religious culture experienced by the laity as well as the clergy and takes account of the particular Irish experience within the wider European context The universal ideals that were defined with increasing clarity by Continental advocates of reform generated a series of initiatives from Irish churchmen aimed at disseminating reform ideology within clerical circles and transmitting it also to lay society even if as elsewhere it often proved difficult to implement in practice Whatever the obstacles faced by reformist clergy their genuine concern to transform the Irish church and society cannot be doubted and is attested in a range of hitherto unexploited sources this volume draws upon Marie Therese Flanagan is Professor of Medieval History at the Queen s University of Belfast

The Encyclopedia of Christianity Erwin Fahlbusch, Geoffrey William Bromiley, 1999 The Encyclopedia of Christianity is the first of a five volume English translation of the third revised edition of Evangelisches Kirchenlexikon Its German articles have been tailored to suit an English readership and articles of special interest to English readers have been added The encyclopedia describes Christianity through its 2000 year history within a global context taking into account other religions and philosophies A special feature is the statistical information dispersed throughout the articles on the continents and over 170 countries Social and cultural coverage is given to such issues as racism genocide and armaments while historical content shows the development of biblical and apostolic traditions This comprehensive work while scholarly is intended for a wide audience and will set the standard for reference works on Christianity Outstanding reference sources 2000 American Libraries May 2000 Comp by the Reference Sources Committee RUSA ALA

Two Nations in Your Womb Israel Jacob Yuval, 2008-08-19 Since it was first published in Hebrew in 2000 this provocative book has been garnering acclaim and stirring controversy for its bold reinterpretation of the relationship between Judaism and Christianity in the Middle Ages especially in medieval Europe Looking at a remarkably wide array of

source material Israel Jacob Yuval argues that the inter religious polemic between Judaism and Christianity served as a substantial component in the mutual formation of each of the two religions He investigates ancient Jewish Passover rituals Jewish martyrs in the Rhineland who in 1096 killed their own children Christian perceptions of those ritual killings and events of the year 1240 when Jews in northern France and Germany expected the Messiah to arrive Looking below the surface of these key moments Yuval finds that among other things the impact of Christianity on Talmudic and medieval Judaism was much stronger than previously assumed and that a rejection of Christianity became a focal point of early Jewish identity Two Nations in Your Womb will reshape our understanding of Jewish and Christian life in late antiquity and over the centuries

Michigan Law Review ,1989 **Old English Heroic Poems and the Social Life of Texts** John D. Niles,2007 Old English Heroic Poems and the Social Life of Texts develops the theme that all stories all beautiful lies if one considers them as such have a potentially myth like function as they enter and re enter the stream of human consciousness In particular the volume assesses the place of heroic poetry including Beowulf Widsith and The Battle of Maldon in the evolving society of Anglo Saxon England during the tenth century period of nation building Poetry Niles argues was a great collective medium through which the Anglo Saxons conceived of their changing social world and made mental adjustments to it Old English heroic geography is examined as an aspect of the mentality of that era So too is the idea of the oral poet or bard as a means by which the people of this time continued to conceive of themselves in defiance of reality as members of a tribe like community knit by close personal bonds The volume is rounded off by the identification of Bede s story of the poet CAedmon as the earliest known example of a modern folktale type and by a spirited defense of Seamus Heaney s recent verse translation of Beowulf
