Triple Challenge Europe Development Governance:

The Triple Challenge for Europe Jan Fagerberg, Staffan Laestadius, Ben R. Martin, 2015-10-15 Europe is confronted by an intimidating triple challenge economic stagnation climate change and a governance crisis This book demonstrates how these three challenges are closely inter related A return to economic growth cannot come at the expense of greater risk of irreversible climate change Instead what is required is a reconceptualization of what is intended by economic development and a fundamental transformation of the economy to a new green trajectory based on rapidly diminishing emission of greenhouse gases This entails a much greater emphasis on innovation in all its forms not just technological Innovation policy must be placed at the very heart of industrial policy and indeed of economic policy more broadly Other parts of the world are also facing varying forms of the triple challenge and while the governance challenge may not be exactly the same as for Europe and the EU Europe is uniquely placed to take the lead in addressing the triple challenge While this may well entail certain costs in the short term it will undoubtedly bring considerable benefits in the longer term It should also encourage countries in other parts of the world to follow Europe s lead in this transformation process thereby ensuring that climate change is kept within manageable bounds Addressing the triple challenge would thus provide Europe and its citizens with a new sense of purpose revitalizing the EU and the European project over the decades to come

The Triple Challenge for Europe ,2016

The Triple Challenge for Europe Jan Fagerberg, Staffan Laestadius, Ben R. Martin, 2015 Europe is confronted by an intimidating triple challenge economic stagnation climate change and a governance crisis This book demonstrates how these challenges are inter related and discusses how they can be dealt with more effectively in order to arrive at a more economically secure environmentally sustainable and well governed Europe

Innovation, Economic Development and Policy Jan Fagerberg, 2018-04-27 This authoritative and enlightening book focuses on fundamental questions such as what is innovation who is it relevant for what are the effects and what is the role of innovation policy in supporting innovation diffusion The first two sections present a comprehensive overview of our current knowledge on the phenomenon and analyse how this knowledge and the scholarly community underpinning it has evolved towards its present state The third part explores the role of innovation for growth and development while section four is concerned with the national innovation system and the role of innovation policy in influencing its dynamics and responding to the important challenges facing contemporary societies

Innovation Systems, Policy and Management Jorge Niosi, 2018-08-02 Describes how institutions and markets can best be structured in order to promote innovation in key economic sectors

Globalisation, New and Emerging Technologies, and Sustainable Development Jesper Lindgaard Christensen, Birgitte Gregersen, Jacob Rubæk Holm, Edward Lorenz, 2021-05-03 This book explores the capacity of the Danish innovation system to respond to key societal challenges including the green imperative of achieving growth with environmental sustainability and the need to adapt to new and possibly disruptive changes in technology often referred to as

the Fourth Industrial Revolution The book is divided into four main parts The first describes the evolving characteristics of the Danish system of research and innovation with special attention to the role of policy at the national and regional levels The second part focuses on interorganisational relations including the position of Danish firms in national and global value chains The third part examines changes in labour markets and in the educational and training system and it considers the impact of new technologies including robotics and artificial intelligence on employment and skills The fourth part turns to issues of climate change and environmental sustainability including an assessment of the Danish economy's success in meeting the challenges of the UN Sustainable Development Goals The book will be of particular interest to small countries of which the Danish innovation system is representative but it also appeals more broadly to an audience interested in innovation systems and policies to support economic development

Challenges of European External Energy Governance with Emerging Powers Michèle Knodt, Nadine Piefer, 2016-03-03 In a multipolar world with growing demand for energy not least by Emerging Powers such as Brazil India China or South Africa BICS questions of EU external energy governance would at first hand appear to be a high priority Yet reality tells a different story the EU's geographical focus remains on adjacent countries in the European neighbourhood and on issues related to energy security Despite being Strategic Partners and engaging in energy dialogues it seems that the EU is lacking strategic vision and is not perceived as a major actor in energy cooperation with the BICS Thus political momentum for energy cooperation and joint governance of scarce resources is vanishing Resulting from three years of international interdisciplinary research cooperation among academics and practitioners in Europe and the BICS countries within a project funded by the Volkswagen Foundation this volume addresses one of the greatest global challenges Specific focus lies on the bilateral energy dialogues and Strategic Partnerships between the EU and Emerging Powers regarding bilateral inter and transnational energy cooperation Furthermore the analysis provides policy recommendations in order to tap the full potential of energy cooperation between the EU and Brazil India China and South Africa

ECDG 2019 19th European Conference on Digital Government Asst. Prof. Dr. Tuğberk Kaya, 2019-10-24

Bioeconomy for Beginners Joachim Pietzsch, 2020-03-06 This book provides an interdisciplinary and comprehensible introduction to bioeconomy It thus provides basic knowledge for understanding a transformation process that will shape the 21st century and requires the integration of many disciplines and industries that have had little to do with each other up to now We are talking about the gradual and necessary transition from the age of fossil fuels which began around 200 years ago to a global economy based on renewable raw materials and renewable energies The success of this transition is key to coping with the challenge of climate change This book conceives the realization of bioeconomy as a threefold task a scientific an economic and an ecological one Where does the biomass come from that we need primarily for feeding the growing world population but also for future energy and material use How can it be processed in biorefineries and what role does biotechnology play in this regard Which aspects of innovation economics need to be considered which

economic aspects of value creation competitiveness and customer acceptance are important What conditions must a bioeconomy fulfil in order to enable a sustainable development of life on earth May it be regarded as a key to further economic growth or shouldn't it rather orient itself towards the ideal of sufficiency By dealing with these questions from the not necessarily consistent perspectives of proven experts this book provides an interdisciplinary overview of a dynamic field of research and practice that raises more questions than answers and thus may nurture the motivation of many more people to seriously engage for the realization of a bioeconomy

Sustainability of Thailand's Competitiveness Patarapong Intarakumnerd, Yveline Lecler, 2010 Competitiveness of a country requires continuous upgrading and sometimes major transformation Thailand is at the crossroad It can no longer pursue a strategy based on low cost advantages but its capability achievements are still too low to become an advanced economy This book points out weaknesses of Thailand's national innovation system or education and suggests how the country should develop new capabilities to survive and prosper in the globalized and fiercely competitive world It will be useful to researchers and students who want to learn more about Thailand and emerging countries and also to policy makers and executives involved in economic and industrial development Co published with IRASEC Research Institute on Contemporary Southeast Asia Bangkok

Handbook on the Bioeconomy Davide Viaggi, 2025-03-12 Providing a comprehensive account of the latest research and thinking on the bioeconomy Davide Viaggi brings together expert authors to reflect on the economics of using renewable biological resources to produce bio based materials food energy and more The Handbook analyses the evolving concept of the bioeconomy and its potential as a solution to major global societal and sustainability challenges including food security ecosystem management the limits to growth and combating climate change and pollution

Foundations of Economic Change Andreas Pyka, Uwe Cantner, 2017-11-15 The book illustrates the considerable advances in modern evolutionary economics and addresses core questions of economic

behaviour interaction of heterogeneous actors in uncertain environments and the possibility of aggregating observations on a macro economic level It presents the foundations of economic change as the major building blocks of an economic approach that focusses on complex processes driven by endogenous innovation as well as crisis The theoretical considerations are complemented by econometric studies to demonstrate the relevance of evolutionary economic thinking to improve our understanding of the most challenging issues related to economic growth and development Climate Change 2022 - Mitigation of Climate Change Intergovernmental Panel on Climate Change (IPCC),2023-08-17 This Working Group III contribution to the IPCC Sixth Assessment Report provides a comprehensive and transparent assessment of the literature on climate change mitigation The report assesses progress in climate change mitigation options for reducing emissions and enhancing sinks With greenhouse gas emissions at the highest levels in human history this report provides options to achieve net zero as pledged by many countries The report highlights for the first time the social and demand side aspects of climate mitigation and assesses the literature on human behaviour lifestyle and culture and its implications for mitigation action It brings a wide range of disciplines notably from the social sciences within the scope of the assessment IPCC reports are a trusted source for decision makers policymakers and stakeholders at all levels international regional national local and in all branches government businesses NGOs Available as Open Access on Cambridge Core

The Role of Public Participation in Energy Transitions Ortwin Renn, Frank Ulmer, Anna Deckert, 2020-03-21 The Role of Public Participation in Energy Transitions provides a conceptual and empirical approach to stakeholder and citizen involvement in the ongoing energy transition conversation focusing on projects surrounding energy conversion and efficiency reducing energy demand and using new forms of renewable energy sources Sections review and contrast different approaches to citizen involvement discuss the challenges of inclusive participation in complex energy policymaking and provide conceptual foundations for the empirical case studies that constitute the second part of the book The book is a valuable resource for academics in the field of energy planning and policymaking as well as practitioners in energy governance energy and urban planners and participation specialists *Handbook on Green Growth* Roger Fouquet, 2019 Economies around the world have arrived at a critical juncture to continue to grow fuelled by fossil fuels and exacerbate climate change or to move towards more sustainable greener growth Choosing the latter is shown to help address climate change as well as present new economic opportunities This Handbook provides a deeper understanding of the concept of green growth and highlights key lessons from the experience of green transformations across the world following a decade of ambitious stimulus packages and green reforms

Cross-Border Cooperation (CBC) Strategies for Sustainable Development Castanho, Rui Alexandre, 2020-02-14 As the importance of sustainability in strategy and development grows so does the importance of cross border cooperation CBC to facilitate green projects Border territories however are complex and fragile areas and thus their planning through CBC projects should be deeply analyzed and studied It has become crucial to understand this issue across

many different disciplines Cross Border Cooperation CBC Strategies for Sustainable Development is a pivotal reference source that provides relevant theoretical frameworks and trends in border area dynamics as well as cross border cooperation's influence on sustainable development Highlighting topics such as CBC in insular territories biodiversity policy and sustainable planning and development this book is ideally designed for culture analysts sustainability specialists policymakers researchers academicians and students

Transformation of Business Organization Towards

Sustainability Jurgis Kazimieras Staniškis, Eglė Staniškienė, Živilė Stankevičiūtė, Asta Daunorienė, Joana

Ramanauskaitė, 2022-01-12 We have entered a new era where business technologies communities and even pandemic diseases cross borders with unprecedented speed and intensity 2030 Agenda and 17 SDGs reflect the global community's high expectations of finally reversing the destruction of our natural and social habits and achieving a more balanced and equitable pathways toward well being of all However despite the initial efforts the world is not on track to achieving the most of the 169 targets that comprise the goals It is evident that we have a system problem so we need a system solution Authors presented a hierarchical system consisting of two level management systems first level unsustainability reduction systems and second level control system for transformations toward sustainability The book clearly shows that implementation of systems for unsustainability reduction and for transformations toward sustainability is possible and that sufficient knowledge is available to get started It is designed for researchers practitioners and politicians

New Europe's New Development

Aid Balázs Szent-Iványi, Simon Lightfoot, 2015-04-17 This book examines the international development policies of five East Central European new EU member states the Czech Republic Hungary Poland Slovakia and Slovenia These countries turned from being aid recipients to donors after the turn of the millennium in the run up to EU accession in 2004 The book explains the evolution subsequent to EU accession and current state of foreign aid policies in the region and the reasons why these deviate from many of the internationally agreed best practices in development cooperation It argues that after the turn of the millennium a Global Consensus has emerged on how to make foreign aid more effective for development A comparison between the elements of the Global Consensus and the performance of the five countries reveals that while they have generally implemented little of these recommendations there are also emerging differences between the countries with the Czech Republic and Slovenia clearly aspiring to become globally responsible donors Building on the literatures on foreign policy analysis international socialization and interest group influence the book develops a model of foreign aid policy making in order to explain the general reluctance of the five countries in implementing international best practices and also the differences in their relative performance
