Faulkner and Film Peter Lurie, Ann J. Abadie, 2014-09-18 Considering that he worked a stint as a screenwriter it will come as little surprise that Faulkner has often been called the most cinematic of novelists Faulkner s novels were

produced in the same high period as the films of classic Hollywood a reason itself for considering his work alongside this dominant form Beyond their era though Faulkner s novels or the ways in which they ask readers to see as well as feel his world have much in common with film That Faulkner was aware of film and that his novels own thinking betrays his profound sense of the medium and its effects broadens the contexts in which he can be considered In a range of approaches the contributors consider Faulkner s career as a scenarist and collaborator in Hollywood the ways his screenplay work and the adaptations of his fiction informed his literary writing and how Faulkner s craft anticipates intersects with or reflects upon changes in cultural history across the lifespan of cinema Drawing on film history critical theory archival studies of Faulkner s screenplays and scholarship about his work in Hollywood the nine essays show a keen awareness of literary modernism and its relation to film **Medium** ,1997
