SUMMARY - Where Good Ideas Come From : The Natural History of Innovation by Steven Johnson Shortcut Edition, 2021-05-16 Our summary is short simple and pragmatic It allows you to have the essential ideas of a big book in less than 30 minutes You will discover the springs of innovation and progress in human societies as well as in nature You will also discover that evolution in nature obeys rules comparable to those of human innovation and can bring us valuable lessons innovation is not only based on the inventiveness of an individual but on fertile environments that allow the circulation of ideas it is through cooperation and exchange that innovative ideas can develop in all fields progress and great discoveries are made step by step and have multiple influences innovation is nourished by the confrontation of different points of view and the intervention of various specialties From the very beginning the capacity for innovation has been what has allowed us to evolve and prosper Nature abounds in creative potential and sometimes surprising complexity By studying its workings we can discern trends that are found in human societies and can serve as inspiration Indeed certain ecosystems are particularly conducive to the development of life ideas and technologies Very rich in activity they are based primarily on the openness and free circulation of resources Buy now the summary of this book for the modest price of a cup of coffee **SUMMARY** Edition Shortcut (author), 1901 *Where Good Ideas Come From* Rabi Hassan, 2019 Good ideas do not come from looking forward or back rather they come from looking left and right to what is adjacent to us Johnson builds on Stuart Kauffman's concept of the adjacent possible to reaffirm that tomorrow's great innovations are built from the stuff of today specifically

from the things around us that can be combined into something new As a message innovation patterns steps should be simply followed together Go for a free walk while cultivating many hunches write immediately everything down as brain storming while keeping all your folders messy Search for valuable new things in spite of making mistakes and increase your outing mingling and coffeehouses and get help of many liquid networks Finally let others build on your ideas by borrowing ways and recycling old facts to reach invention Creativity is Contagious Pass it on *Strategic Business Transformation* Mohan Nair,2011-08-24 Strategic Business Transformation The seven deadly sins to overcome What can Gandhi Mother Teresa and Nelson Mandela teach us about running businesses that face transformation in their markets This book courageously offers that businesses that transform markets or respond to transformation know that they must transform themselves before they transform others Great companies find a cause greater than themselves organizes this cause into executable momentum and conquers the imagination of the market Transforming your business requires a recipe powered by a cause not missions Read and see how and why **Fruition: How Great Ideas Come to Life** Chris Adrien,John Lavelle,2020-04-08 How often do you find yourself saying Great idea All the time right Now how often do those ideas actually become reality Rarely Why is that Is it because there are not many great ideas in the world Or is there something else standing in the way Fruition How Great Ideas Come to Life is the first book to uncover what it takes to turn your great idea into a great thing Unlike other books and frameworks which only present lists of techniques to try when creating and selling your idea Fruition gets to the bottom of what differentiates successful great ideas those that become a reality from all those that did not The authors leverage their decades of research and experience to teach you the fundamentals for how to successfully bring your great ideas to fruition Discover how almost anyone can have great ideas by tapping into the 3 Senses Model of ideation Learn common failure points for fruition and why most ideas remain unrealized Uncover the 6 Efforts System of Idea Fruition that all successful ideators take on and understand why each is critical to your success For each of the 6 Efforts you need to have to bring your idea to life we share dozens of techniques and strategies This book is for anyone who feels like they have great ideas but are stuck or don t even know where to start It is perfect for leaders who want to empower their teams to discover more great ideas and navigate the complicated process of selling them within an organization Whether your idea is the next billion dollar product a process improvement for your workplace a movement to mobilize a community or a way to make the parent group at your child s school function better this will empower you to successfully navigate the journey to fruition **Navigating the Future** Andrew P. Hogue,Dr. L. Gregory Jones,2021-01-05 Traditioned innovation is a habit of being and living that cultivates a certain kind of moral imagination shaped by storytelling and expressed in creative transformational action Moral imagination is about character which depends on ongoing formation that takes place in friendships and communities that embody traditions and that are sustained by institutions There is no quick fix or set of techniques that will create a mindset of traditioned innovation But we do believe that you can learn to cultivate it by Becoming immersed in an imaginative

engagement with the story of God told through Scripture Learning from exemplary institutions communities and people practicing traditioned innovation Discovering new skills for integrating character formation and dense networks of friendships communities and institutions into your leadership and life Navigating the Future will explore stories and tips for cultivating traditioned innovation that will stimulate your thinking and inspire your imagination for more faithful and fruitful living along with the cultivation of more vibrant life giving institutions

Managing Discovery in the Life Sciences Philip A. Rea, Mark V. Pauly, Lawton R. Burns, 2018-02-01 In this book distinguished scholars Philip A Rea Mark V Pauly and Lawton R Burns explore the science and management behind marketable biomedical innovations They look at how the science actually played out through the interplay of personalities the cultures within and between academic and corporate entities and the significance of serendipity not as a mysterious phenomenon but one intrinsic to the successes and failures of the experimental approach With newly aggregated data and case studies they consider the fundamental economic underpinnings of investor driven discovery management not as an obstacle or deficiency as its critics would contend or as something beyond reproach as some of its proponents might claim but as the only means by which scientists and managers can navigate the unknowable to discover new products and decide how to sell them so as to maximize the likelihood of establishing a sustainable pipeline for still more marketable biomedical innovations
