Transcending Racial Barriers Michael O. Emerson, George Yancey, 2010-12-21 Despite recent progress against racial inequalities American society continues to produce attitudes and outcomes that reinforce the racial divide In *Transcending Racial Barriers* Michael Emerson and George Yancey offer a fresh perspective on how to combat racial division They document the historical move from white supremacy to institutional racism then look at modern efforts to overcome the racialized nature of our society The authors argue that both conservative and progressive approaches have failed as they continually fall victim to forces of ethnocentrism and group interest They then explore group interest and possible ways to account for the perspectives of both majority and minority group members They look to multiracial congregations multiracial families the military and sports teams all situations in which group interests have been overcome before In each context they find the development of a core set of values that binds together different racial groups along with the flexibility to express racially based cultural uniqueness that does not conflict with this critical core *Transcending Racial Barriers* offers what is at once a balanced approach towards dealing with racial alienation and a bold step forward in the debate about the steps necessary to overcome present day racism

Confronting Racial Injustice Gerald Hiestand, Joel Lawrence, 2022-11-30 One of the greatest crises facing the church is the crisis of racial injustice that has so long marred the body of Christ in America Evangelicals have traditionally had a set of biblical theological and cultural tools we have used for dealing with questions about race the necessity of personal responsibility the possibility of heart renewal through faith in Jesus the transformative impact of interpersonal relationships and the bedrock conviction that every human being is made in the image of God and is thus of equal worth and dignity But in the world after 2020 the evangelical church must now recognize that our theological playbook has been ineffective in rooting out racism from the church and in confronting our own complicity in racial injustice We must now ask What other theological convictions are required of us as we consider the image bearing humanity of George Floyd Breonna Taylor Ahmaud Arbery and many others Confronting Racial Injustice explores theological vistas to aid the church in our pursuit of racial justice

Faith, Hope, Love, and Justice Anselm K. Min, 2018-03-28 Faith hope and love traditionally called theological virtues are central to Christianity This book renews faith hope and love in the context of the many contemporary challenges in many unique ways It is an ecumenical collection of papers equally divided between Catholic and Protestant positions that seek to radically renew the classical doctrine of faith hope and love and argues for their essential connection to the praxis of justice It contains eight different approaches each represented by a distinguished theologian and addressing different aspects of the issues and followed by insightful and critical responses It does not merely seek to renew the theological virtues but to also reconstruct them in the demanding context of justice and the contemporary world nor is it simply a treatise on justice but a

theoretical and practical reflection on justice as vital expressions of faith in God hope in God and love of God A non dogmatic and non ideological approach it accommodates both conservative and liberal positions and avoids the separation of the theological virtues from the demands of the contemporary world as well as the separation of justice talk from the theological context of faith hope and love It seeks above all to renew not merely repeat the classical doctrine of faith hope and love in the contemporary context of the urgency of justice and to do so ecumenically comprehensively and from a variety of perspectives and aspects

A Shared Future Richard L. Wood, Brad R. Fulton, 2015-12 At a time when participation in democratic governance exhibits a decrease among the less well off and an increase of power among the elite one big question concerns how to reverse this trend Wood and Fulton have devoted this book to finding ways to build democratic participation by low income and working families and to create cross racial alliances Here s where faith based organizations enter the picture These organizations have been significant players in shaping health care reform financial reform and immigration reform at higher levels of government aimed at benefitting working families It is a movement which directly addresses economic inequality policy paralysis and racial injustice in the United States Faith based organizing the authors show offers important lessons for an American public struggling to combine universalist democratic ideals with an increasingly multicultural reality in what will soon be a thoroughly multicultural society as new immigrant arrivals and demographic diffusion spread diversity into settings that were once bastions of white subculture Models for community organizing have been supplied over time by Saul Alinsky Cesar Chavez and Martin Luther King Jr *A Shared Future* has a distinctly empirical focus on one of the most important sponsoring networks for faith based organizations PICO Pacific Institute for Community Organizations which shifted neighborhood based organizations to congregation based organizations They achieved a high profile during the formation of health care policy that found its way into Obamacare legislation and have also been an important agent for addressing racial equity Wood and Fulton here address a new generation of faith based community organizers seeking to ground the movement in what they call ethical democracy and fleshing out an approach to addressing economic inequality and political paralysis

Us Versus Them Jan Doering, 2020 Crime and gentrification are hot button issues that easily polarize racially diverse neighborhoods How do residents activists and politicians navigate the thorny politics of race as they fight crime or resist gentrification And do conflicts over competing visions of neighborhood change necessarily divide activists into racially homogeneous camps or can they produce more complex alliances and divisions In *Us versus Them* Jan Doering answers these questions through an in depth study of two Chicago neighborhoods Drawing on three and a half years of ethnographic fieldwork Doering examines how activists and community leaders clashed and collaborated as they launched new initiatives built coalitions appeased critics and discredited opponents At the heart of these political maneuvers he uncovers a ceaseless battle over racial meanings that unfolded as residents strove to make local initiatives and urban change appear racially benign or malignant A thoughtful and clear eyed contribution to the field *Us versus Them* reveals the deep

impact that competing racial meanings have on the fabric of community and the direction of neighborhood change
