Transformational Ethics of Film Martin P. Rossouw,2021-05-31 What is the good of the film experience And how does the budding field of film as philosophy answer this question Charting new routes for film ethics Martin P Rossouw develops a critical account of the transformational ethics at work within the film as philosophy debate Whenever philosophers claim that films can do philosophy they also persistently put forward edifying practical effects potential transformations of thought and

experience as the benefit of viewing such films Through rigorous appraisals of key arguments and with reference to the cinema of Terrence Malick Rossouw pieces together the idea of an inner makeover through cinema a cinemakeover which casts a distinct vision of film spectatorship as a practice of self transformation Recasting much of the existing debate Martin Rossouw s emphasis on film s power for enacting ethical transformation rather than theoretical insight or discovery gives a much needed shot in the arm to a topic whose development has stalled in recent years This highly original book offers a unique and provocative contribution to the scholarship Rossouw is a persistent questioner often demonstrating sharp philosophical instincts Shawn Loht Philosophy in Review Vol 43 no 1 February 2023 At once a comprehensive record and a ceaseless meta critique Rossouw s Transformational Ethics of Film is a thorough and bittersweet investigation into the aspiration and limits of this strand of film philosophy scholarship Rossouw s detailed commitment to this critical exercise both provides a bountiful resource for film ethics scholarship bringing organized clarity to an otherwise scattered but nonetheless commanding school of thought and presents a potentially radical prospect for the position of meta hermeneutics in the world of art theory Daniel E Smith New Review of Film and Television Studies Vol 22 no 2 July 2024

The Human Capacity for Transformational Change Valerie A. Brown, John A. Harris, 2014-02-24 Pressures for transformational change have become a regular feature of most fields of human endeavour Master thinkers and visionaries alike have reframed existing divisions as connecting relationships bringing together as dynamic systems the supposed opposites of parts and wholes stability and change individuals and society and rational and creative thinking This reframing of opposites as interconnected wholes has led to realisation of the power of a collective mind This book offers ways and means of creating the synergies that are crucial in influencing a desired transformational change towards a just and sustainable future It describes how and why our current decision making on any complex issue is marked by clashes between the different interests involved More optimistically the book pursues a mode of thinking that brings together government specialised and community interests at the local regional and personal scales in a collective transformation process Practical examples signal the emergence of a new knowledge tradition that promises to be as powerful as the scientific enlightenment Written in accessible language this book will be insightful reading for anyone struggling with transformational change especially researchers students and professionals in the fields of administration governance environmental management international development politics public health public law sociology and community development

Tonality and Transformation Steven Rings, 2011-06-10 Tonality and Transformation employs transformational music theory to illuminate diverse aspects of tonal hearing from the infusion of sounding pitches with familiar tonal qualities to sensations of directedness and attraction The book introduces many new analytical techniques which are employed in vivid interpretive set pieces treating music from Bach to Mahler

The Routledge International Handbook of Dialectical Thinking Nick Shannon, Michael F. Mascolo, Anastasia

Belolutskaya, 2024-07-23 The Routledge International Handbook of Dialectical Thinking is a landmark volume offering a multi disciplinary compendium of the research theory and practice that defines dialectical thinking its importance and how it develops over the lifespan For the first time this handbook brings together theory and research on dialectical thinking as a psychological phenomenon from early childhood through the human lifespan Grounding dialectical thinking in multiple philosophical traditions stemming from antiquity it explores current psychological models of such thought patterns and shows how these can be applied in everyday life and across multiple disciplines including philosophy physics mathematics and international relations The handbook explains the nature of dialectical thinking why it is important and how it can be

developed in children and in adults It concludes with a final chapter depicting a discussion among the authors exploring the question how could dialectical thinking be the antidote to dogma Written by a group of international scholars this comprehensive publication is an essential reference for researchers and graduate students in psychology and the social sciences as well as scholars interested in integrating different perspectives and issues from a wide variety of disciplines
