Translating Controversial Texts in East Asian Contexts Adam Zulawnik, 2022-06-24 Zulawnik focuses on the broad concept of controversy and issues pertaining to the translation of politically and historically controversial texts in East Asia The research methodology is exemplified through a case study in the form of the author's translation of the best selling Japanese graphic novel manga *Manga Kenkanryu Hate Hallyu The Comic* by Sharin Yamano 2005 a work that has been problematised as an attack on South Korean culture and the Korean Wave Issues analysed and discussed in the research include translation risk ethics a detailed methodology for the translation of so called controversial texts exemplified through numerous thematically divided examples from the translation of the chosen Japanese text as well as examples from a Korean language equivalent *Manhwa Hyeomillyu Hate Japanese Wave* and definition and contextualisation of the concept of controversy There has been limited research in the field of translation studies which seeks to exemplify potential pragmatic approaches for the translation of politically charged texts particularly in multi modal texts such as the graphic novel It is hoped that Zulawnik's research will serve both as a valuable source when examining South Korea Japan relations and a theoretical and methodological base for further research and the development of an online augmented translation space with devices specifically suited for the translation of multi modal texts such as but not limited to graphic novels and visual encyclopaedias *Translation in Modern Japan* Indra Levy, 2017-07-05 The role of translation in the formation of modern Japanese identities has become one of the most exciting new fields of inquiry in Japanese studies This book marks the first attempt to establish the contours of this new field bringing together seminal works of Japanese scholarship and criticism with cutting edge English language scholarship Collectively the contributors to this book address two critical questions 1 how does the conception of modern Japan as a culture of translation affect our understanding of Japanese modernity and its

relation to the East West divide and 2 how does the example of a distinctly East Asian tradition of translation affect our understanding of translation itself The chapter engage a wide array of disciplines perspectives and topics from politics to culture the written language to visual culture scientific discourse to children s literature and the Japanese conception of a national literature Translation in Modern Japan will be of huge interest to a diverse readership in both Japanese studies and translation studies as well as students and scholars of the theory and practice of Japanese literary translation traditional and modern Japanese history and culture and Japanese women s studies

Languages, scripts, and Chinese texts in East Asia Peter Francis Kornicki, 2018-01-19 Chinese Writing and the Rise of the Vernacular in East Asia is a wide ranging study of vernacularization in East Asia not only China Japan Korea and Vietnam but also societies that no longer exist such as the Tangut and Khitan empires Peter Kornicki takes the reader from the early centuries of the common era when the Chinese script was the only form of writing and Chinese Buddhist Confucian and medical texts spread throughout East Asia through the centuries when vernacular scripts evolved right up to the end of the nineteenth century when nationalism created new roles for vernacular languages and vernacular scripts Through an examination of oral approaches to Chinese texts it shows how highly valued Chinese texts came to be read through the prism of the vernaculars and ultimately to be translated This long process has some parallels with vernacularization in Europe but a crucial difference is that literary Chinese was unlike Latin not a spoken language As a consequence people who spoke different East Asian vernaculars had no means of communicating in speech but they could communicate silently by means of written conversation in literary Chinese a further consequence is that within each society Chinese texts assumed vernacular garb in classes and lectures Chinese texts were read and declaimed in the vernaculars What happened in the nineteenth century and why are there still so many different scripts in East Asia How and why were Chinese texts dethroned and what replaced them These are some of the questions addressed in Chinese Writing and the Rise of the Vernacular in East Asia
