Translation Peripheries Paratextual Elements In Translation:

Translation Peripheries Anna Gil Bardají, Pilar Orero, Sara Rovira Esteva, 2012 This book investigates different elements which have direct implications for translations but are not the actual text These features are usually presented in a particular format written oral digital audio visual or musical They are furnished with for example illustrations prologues introductions indexes or appendices or are accompanied by an ensemble of information outside the text such as an interview with the author a general or specialist press review an advertisement or a previous translation However the boundaries of paratextuality are not limited to the aforementioned examples since paratextuality has a direct implication for areas as diverse as censorship a contracting economy decisions taken by the various actors in the political or cultural context in which the text occurs Therefore it is obvious that most of the key concepts in Translation Studies cannot be fully understood without reference to the part played by paratextual elements examined here taking into account different language pairs from Turkish to Catalan The content presented in this book is gathered from a conference on Paratextual Elements in Translation held at the Universitat Autònoma de Barcelona in 2010 *Translation and Paratexts* Kathryn Batchelor, 2018-05-16 As the thresholds through which readers and viewers access texts paratexts have already sparked important scholarship in literary theory digital studies and media studies Translation and Paratexts explores the relevance of paratexts for translation studies and provides a framework for further research Writing in three parts Kathryn Batchelor first offers a critical overview of recent scholarship and in the second part introduces three original case studies to demonstrate the importance of paratextual theory Batchelor interrogates English versions of Nietzsche Chinese editions of Western translation theory and examples of subtitled drama in the UK before concluding with a final part outlining a theory of paratextuality for translation research addressing questions of terminology and methodology Translation and Paratexts is essential reading for students and researchers in translation studies interpreting studies and literary translation Text, Extratext, Metatext and Paratext in Translation Valerie Pellatt, 2014-01-08 This volume brings together research on a variety of paratextual and peritextual elements of translation of German Chinese and Czech source texts The explication seen as necessary to translated texts is a part of this growing field as researchers investigate the influence of writing which purports to help the reader's understanding of a text The articles included here demonstrate the impact of paratextual and peritextual elements on the way a text is produced and received Publishers both consciously and unconsciously may manipulate the presentation of a text to appeal to a certain readership while writers of prefatorial explanatory and critical material base their paratextual interpretation on their own perceptions and political leanings The articles in the volume focus on significant literary texts by writers such as Christa Wolf and Mao Zedong Regional novels of Taiwan modern and traditional poetry and children's stories are not exempt from the power of paratext and some genres such as the literary mystification texts published in the Czech Republic are purposefully designed to mislead the reader The articles in the volume help to dispel the

notion that translation and the paratext which surrounds it and of which it is a part are innocent

Paratexts in Translation Richard Pleijel, Malin Podlevskikh Carlström, 2022-08-23 As something that surrounds extends and presents a text to the world the phenomenon of paratext is gaining more and more attention within the discipline of Translation Studies This edited volume with contributions by five Nordic scholars aims to build on that attention by presenting five case studies on paratexts in translations into Danish Norwegian and Swedish A special focus lies on the paratextual mechanisms at play when works from different source cultures are translated into a Nordic target context The translated works under scrutiny belong to genres such as literary novels non fiction works and religious texts and the paratexts surveyed include footnotes covers blurbs introductions and literary reviews The scholars represented in the volume all work in Translation Studies or at the intersection between Translation Studies and other disciplines

Translating Chinese Culture Valerie Pellatt, Eric

T. Liu, Yalta Ya-Yun Chen, 2014-04-16 Translating Chinese Culture is an innovative and comprehensive coursebook which addresses the issue of translating concepts of culture. Based on the framework of schema building, the course offers helpful guidance on how to get inside the mind of the Chinese author, how to understand what he or she is telling the Chinese speaking audience, and how to convey this to an English speaking audience. A wide range of authentic texts relating to different aspects of Chinese culture and aesthetics are presented throughout, followed by close reading discussions of how these practices are executed and how the aesthetics are perceived among Chinese artists, writers, and readers. Also taken into consideration are the mode, audience, and destination of the texts. Ideas are applied from linguistics and translation studies, and each discussion is reinforced with a wide variety of practical and engaging exercises. Thought provoking yet highly accessible, Translating Chinese Culture will be essential reading for advanced undergraduates and postgraduate students of Translation and Chinese Studies. It will also appeal to a wide range of language studies and tutors through its stimulating discussion of the principles and purposes of translation.
