Transnational Transcendence Essays On Religion And Globalization:

Transnational Transcendence Thomas J. Csordas, 2009-03-31 This innovative collection examines the transnational movements effects and transformations of religion in the contemporary world offering a fresh perspective on the interrelation between globalization and religion Transnational Transcendence challenges some widely accepted ideas about this relationship in particular that globalization can be understood solely as an economic phenomenon and that its religious manifestations are secondary The book points out that religion s role remains understudied and undertheorized as an element in debates about globalization and it raises questions about how and why certain forms of religious practice and intersubjectivity succeed as they cross national and cultural boundaries Framed by Thomas J Csordas s introduction this timely volume both urges further development of a theory of religion and globalization and constitutes an important step toward that theory

Research Handbook on the Sociology of Globalization Christian Karner, Dirk Hofäcker, 2023-07-01 This Research Handbook takes stock of the state of the art in sociological research on globalization and the contributors outline future trajectories for this one of the most pressing and challenging sociological themes of our time

Religion, Politics, and Globalization Galina Lindquist, Don Handelman, 2012-11 While social scientists beginning with Weber envisioned a secularized world religion today is forthrightly becoming a defining feature of life all around the globe The complex connections between religion and politics and the ways in which globalization shapes these processes are central themes explored in this volume by leading scholars in the field of religion Does the holism of numerous past and present day cosmologies mean that religions with their holistic orientations are integral to human existence What happens when political ideologies and projects are framed as transcendental truths and justified by Divine authority How are individual and collective identities shaped by religious rhetoric and what are the consequences Can mass murder deemed terrorism be understood as a form of ritual sacrifice and if so what are the implications for our sensibilities and practices as scholars and citizens Using empirical material from historical analyses of established religions to the everyday strife of marginalized groups such as migrants and dissident movements this volume deepens the understanding of processes that shape the contemporary world

Asian Migrants and Religious Experience Bernardo Brown, Brenda Yeoh, 2025-10-01 Typically scholars approach migrants religions as a safeguard of cultural identity something that connects migrants to their communities of origin This ethnographic anthology challenges that position by reframing the religious experiences of migrants as a transformative force capable of refashioning narratives of displacement into journeys of spiritual awakening and missionary calling These essays explore migrants motivations in support of an argument that to travel inspires a search for new meaning in religion

Annual Review of the Sociology of Religion. Volume 14 (2023) , 2024-03-04 This volume of the Annual Review for the Sociology of Religion addresses the challenges of the diversity and complexity of sociological approaches to Asian forms and dynamics of Asian or Asian inspired ascetic ideas and practices Eleven papers written by

scholars conducting researches in different geographic and cultural contexts all contribute to enrich discussion on the relevance of sociological studies of Yoga meditation and other ascetic techniques and traditions Contributors are Zuzana Bortov, Loïc Bawidamann, Jörn Borup, Sally S.J. Brown, Ugo Dess, Marianne Qvortrup, Fibiger, Marc Lebranchu, Patrick S.D. McCartney, Lionel Obadia, Matteo Di Placido, Alexandros Sakellariou, João Paulo P. Silveira, and Rafael Walthert. The Oxford Handbook of the Study of Religion Michael Stausberg, Steven Engler, 2016-10-27 The Oxford Handbook of the Study of Religion provides a comprehensive overview of the academic study of religion. Written by an international team of leading scholars, its fifty-one chapters are divided thematically into seven sections. The first section addresses five major conceptual aspects of research on religion. Part two surveys eleven main frameworks of analysis, interpretation, and explanation of religion. Reflecting recent turns in the humanities and social sciences, part three considers eight forms of the expression of religion. Part four provides a discussion of the ways societies and religions or religious organizations are shaped by different forms of allocation of resources. Other chapters in this section consider law, the media, nature, medicine, politics, science, sports, and tourism. Part five reviews important developments, distinctions, and arguments for each of the selected topics. The study of religion addresses religion as a historical phenomenon, and part six looks at seven historical processes. Religion is studied in various ways by many disciplines, and this Handbook shows that the study of religion is an academic discipline in its own right. The disciplinary profile of this volume is reflected in part seven, which considers the history of the discipline and its relevance. Each chapter in the Handbook references at least two different religions to provide fresh and innovative perspectives on key issues in the field. This authoritative collection will advance the state of the discipline and is an invaluable reference for students and scholars.

Flows of Faith Lenore Manderson, Wendy Smith, Matt Tomlinson, 2012-02-16 Unique local transformations of the practice of established religions in Asia and the Pacific are juxtaposed with the emergence of new religious movements whose incidence is growing across the region. In *Flows of Faith*, the contributing authors take as their starting point questions of how religions manifest outside their cultural boundaries and provide the basis for new social identities, political movements, and social transformations. With fresh insights into the globalization of beliefs, their local inflections, and their institutionalization, the authors explore how old and new religions work in different settings and how their reception and membership challenge orthodox understandings of religion and culture. The chapters set in Asia, the Pacific, Australia, and the US illustrate the contrasts and commonalities of these belief systems and their allegiances and networks in the region and beyond. They include new religious movements, Falun Gong, Brahma Kumaris, the Hare Krishna movement based in East and South Asia with outreach posts in Australia and the US, and established old religions, Christianity, Buddhism, Hinduism, and Islam, that are revitalized and recreated in different settings and places. *Flows of Faith* describes the transnational reaches of faith. Religious practices and their local manifestations track the movement of peoples through mission, outreach, flight, migration, and pilgrimage. In each new setting, religions are shaped by and in turn shape

political and cultural forces proving that they are resilient and generative originary and distinctive The volume is a major contribution providing readers with a fresh and creative approach into the living experience of religious communities in a contemporary globalised world *Handbook of Contemporary Religions in Brazil* Bettina Schmidt, Steven Engler, 2016-09-19 The Brill Handbook of Contemporary Religions in Brazil provides an unprecedented overview of Brazil's religious landscape It offers a full balanced and contextualized portrait of contemporary religions in Brazil bringing together leading scholars from both Brazil and abroad drawing on both fieldwork and detailed reviews of the literatures For the first time a single volume offers overviews by leading scholars of the full range of Brazilian religions alongside more theoretically oriented discussions of relevant religious and culture themes This Handbook's three sections present specific religions and groups of traditions Brazilian religions in the diaspora and issues in Brazilian religions e.g. women possession politics race and material culture

Christian Congregational Music Monique Ingalls, Carolyn Landau, Tom Wagner, 2016-05-23 Christian Congregational Music explores the role of congregational music in Christian religious experience examining how musicians and worshippers perform identify with and experience belief through musical praxis Contributors from a broad range of fields including music studies theology literature and cultural anthropology present interdisciplinary perspectives on a variety of congregational musical styles from African American gospel music to evangelical praise and worship music to Mennonite hymnody within contemporary Europe and North America In addressing the themes of performance identity and experience the volume explores several topics of interest to a broader humanities and social sciences readership including the influence of globalization and mass mediation on congregational music style and performance the use of congregational music to shape multifaceted identities the role of mass mediated congregational music in shaping transnational communities and the function of music in embodying and imparting religious belief and knowledge In demonstrating the complex relationship between traditional and contemporary sounds and local and global identifications within the practice of congregational music the plurality of approaches represented in this book as well as the range of musical repertoires explored aims to serve as a model for future congregational music scholarship

Global Religious Movements Across Borders Stephen M. Cherry, Helen Rose Ebaugh, 2016-04-22 From global missionizing among proselytic faiths to mass migration through religious diasporas religion has traveled from one side of the world and back again It continues to play a prominent role in shaping world politics and has been a vital force in the continued emergence spread and creation of a transnational civil society Exploring how religious roots are shaping organizations that seek to aid people across political and geographic boundaries service movements this book focuses on how religious movements establish structures to assist people with basic human needs such as food clothing shelter education and health Examining a multitude of faith traditions with origins in different parts of the world seven contributing chapters with an introduction and conclusions by the senior author offer a unique discussion of the intersections between religious transnationalism and social movements
