Trauma And Memory Clinical And Legal Controversies:

Trauma and Memory Paul S. Appelbaum, Lisa A. Uyehara, Mark R. Elin, 1997 This book is a guide to the controversies swirling around recovered memories of trauma especially childhood sexual abuse The contributors provide a road map to the research on memory including ways in which it is affected by trauma Therapeutic approaches to patients suffering the after effects of trauma are considered in detail Trauma and Memory Linda Williams, Victoria L. Banyard, 1999 Clinical practice and legal issues in trauma and memory Mental health and memories of traumatic events Cognitive and physiological perspectives on trauma and memory Evidence and controversies in understanding memories for traumatic events *The Oxford Handbook of Law and Humanities* Simon Stern, Maksymilian Del Mar, Bernadette Meyler, 2020 How might law matter to the humanities How might the humanities matter to law In its approach to both of these questions The Oxford Handbook of Law and Humanities shows how rich a resource the law is for humanistic study as well as how and why the humanities are vital for understanding law Tackling questions of method key themes and concepts and a variety of genres and areas of the law this collection of essays by leading scholars from a variety of disciplines illuminates new questions and articulates an exciting new agenda for scholarship in law and humanities **War and Rape** Nicola Henry, 2012-07-26 Wartime rape has been virulent in wars of sovereignty territory conquest religion ideology and liberation yet attention to this crime has been sporadic throughout history Rape remains unspeakable particularly within law Moreover rape has not featured prominently in post conflict collective memory And even when rape is remembered it is often the subject of political controversy and heated debate In this book Henry asks some critical questions about the relationship between mass rape politics and law In what ways does law contribute to the collective memory of wartime rape How do counter memories of victims compete with the denialism of wartime rape The text specifically analyses the historical silencing of rape throughout international legal history and the potential of law to restore these silenced histories it also examines the violence of law and the obstacles to individual and collective redemption Tracing the prosecution of rape crimes within contemporary courts Henry seeks to argue that politics underscores the way rape is dealt with by the international community in the aftermath of armed conflict Providing a comprehensive overview of the politics of wartime rape and the politics of prosecuting such crimes within international humanitarian law this text will be of great interest to scholars of gender and security war crimes and law and society **Traumatised Witnesses in International Criminal Trials** Suzanne Schot, 2024-02-13 This book focuses on the testimonial evidence of traumatised witnesses in trials of international crimes which deal with acts of genocide war crimes and crimes against humanity Such trials often involve the testimonies of those who experienced or witnessed extremely traumatic events which can make it hard for these witnesses to recall specific details Testifying during trial may in itself also pose challenges to their well being Yet the legal process of determining whether someone can be held criminally responsible for the alleged crimes needs to be fair in accordance with the right to a fair trial of the accused and the facts need to be

determined as accurately as possible This book argues that to ensure fair and accurate fact finding when in particular traumatised witnesses testify a balance needs to be struck between the needs of witnesses who testify about traumatic experiences the fair trial rights of the accused and the objective of the court to establish as accurately as possible the responsibility of the accused This is crucial throughout the stages of selecting preparing presenting and assessing the testimonial evidence of traumatised witnesses The methodology involves an analysis of transcripts of proceedings and case law of the International Criminal Tribunal for the former Yugoslavia the International Criminal Court and Dutch courts prosecuting international crimes The research demonstrates that it is often difficult to strike a balance between the competing objectives during proceedings when traumatised witnesses testify due to the current lack of regulations and guidelines applicable during investigations and prosecutions This book shows that this balance can and should be achieved when traumatised witnesses testify during criminal proceedings for international crimes The work is an invaluable resource for researchers academics and practitioners in criminal law criminology legal psychology legal psychiatry social anthropology and forensic sciences *Annual Progress in Child Psychiatry and Child Development 1999* Margaret Hertzog, Ellen A.
