Today is a turning point in each of our lives. We have spent the past years wandering the halls of this great school and now we are ready to go on.

We have learned, laughed, loved, gotten into trouble, and most of all matured together. But today doesn't just concern reminiscing about the past; it's also about looking forward into our future.

Life is a series of passageways, and we are leaving one and moving on to the next. When we reach that daunting place next year that has been our destination for three years now, we will start over.

We will meet new people, make new friends, and learn new things. We will grow older, more responsible, and independent. Then, the cycle begins again in college, and after that, we are left to traverse the unmapped expanse that is our future.

Hereafter our lives will hold many surprises for us, but I'm sure that we will approach challenges with the same boldness and equanimity with which we tackle problems currently. The unknown of our future may seem frightening now, looming over us like a dark thundercloud, but we might find that it is just a light, spring rain that brings the tidings of a rainbow.

As I look over the many faces I behold today, perceptions of individuals are washed away. I no longer see people as they were; I see them as they will be. So, rather than a young boy, failing all his classes, I see the next Einstein, making revolutionary discoveries. I know that this amphitheatre holds the next decade's great business leaders, doctors, politicians, scientists, and stars, and that all of these graduates will contribute to the fabric of the future in some way.

So when looking at the bright horizon that is my future, I am happy. For although my life will contain sadness and heartbreak, it will also hold joy, love, and success. And I know my classmates' will too. So don't look back, and regret, my friends, look forward, and smile.

Love's Promises Martha M. Ertman, 2016-05-24 Blends memoir and legal cases to show how contracts can create family relationships Most people think of love and contracts as strange bedfellows or even opposites In *Love's Promises* however law professor Martha Ertman shows that far from cold and calculating contracts shape and sustain families Blending memoir and law Ertman delves into the legal cases anecdotes and history of family law to show that love comes in different packages each shaped by different contracts and mini contracts she calls deals Family law should and often does recognize that variety because legal rules like relationships aren't one size fits all The most common form of family which Ertman calls Plan A come into being through different kinds of agreements than the more uncommon families that she dubs Plan B Recognizing the contractual core of all families shows that Plan B is neither unnatural nor unworthy of legal recognition just different After telling her own moving and often irreverent story about becoming part of a Plan B family of two moms and a dad raising a child Ertman shows that all kinds of people straight and gay married and single related by adoption or by genetics use contracts to shape their relationships As couples navigate marriage reproductive technologies adoption and cohabitation they encounter contracts Sometimes hidden and other times openly acknowledged these contracts ensure that the people they think of as family are legally recognized as family in the eyes of the law Family exchanges can be substantial like vows of fidelity or small like I cook and you clean But regardless of scope the agreements shape the emotional social and financial terrain of family relationships Seeing the instrumental role contracts will help readers better understand how contracts and deals work in their own families as well as those around them Both insightful and paradigm shifting *Love's Promises* lets readers in on the power of contracts and deals to support love in its many forms and to honor the different ways that our nearest and dearest contribute to our daily lives

A New History of Tudor England Daniel Bender,2020-04-17 People concerned with the history of education and the history of labor rights bring two premises to the table First that the history of education unfolds separately from the history of working class movements and second that an historical period 400 years old is securely confined by the past Surely the time known as Tudor England most readers would say rests in peace as a bygone era Surely an educational system devised by scholars differs from an economic system operated by large landholders and manorial lords This book challenges both premises The Tudor educational system regarded their select class of boys as human capital to be endowed with royalist values germane to the ruling elite The notion of students as co partners in curriculum making was

unthinkable Mirroring this educational system was a labor system that regarded commoners as dependent economic actors virtual pawns in capitalist strategy Tudor laborers were granted the right to work but had no say in formulating economic policies that affected the core of their working lives Describing the mirroring relation of two marginalized and voiceless groups this book confronts the regrettable historical conditions of students teachers and workers in a celebrated cultural past Tudor England This marginalization of working class and student labor is not a relic from the Tudor past The political and socioeconomic structures that kept students teachers and workers from negotiating their own destiny are still active in the 21st century This text explores the struggle of students teachers and workers with the Tudor legacies of education and labor After tracing these transhistorical connections each essay calls for activism resistance or reform Democracy as Benjamin Franklin explained in the allegory of two wolves and a lamb deciding what to have for lunch has always called for organized resistance from below Pursuing that hopeful goal this book outlines new forms of education and labor strategies If these are put into practice the needs voices and beliefs of students teachers and workers may be recognized and honored by elite leadership
