Wales since 1939 Martin Johnes, 2013-01-18 The period since 1939 saw more rapid and significant change than any other time in Welsh history Wales developed a more assertive identity of its own and some of the apparatus of a nation state Yet its economy floundered between boom and bust its traditional communities were transformed and the Welsh language and other aspects of its distinctiveness were undermined by a globalizing world Wales was also deeply divided by class language ethnicity gender religion and region Its people grew wealthier healthier and more educated but they were not always happier This ground breaking book examines the story of Wales since 1939 giving voice to ordinary people and the variety of experiences within the nation This is a history of not just a nation but of its residents hopes and fears their struggles and pleasures and their views of where they lived and the wider world

Christopher Meredith Diana Wallace, 2018-05-10 The first book length study of the work of Christopher Meredith a leading bilingual Welsh writer Unique in offering close analyses which read across Meredith s poetry and prose Draws on new material from interviews with Meredith to provide new biographical contexts Unusual as a study of a writer who is equally a poet and a novelist Argues that Meredith s writing forms a history of the Anglicised Welsh of south

Porter,2009-05-27 Riots in Literature addresses representations of crowd disorder as manifestations of popular politics including colonial and postcolonial contexts The terms used to describe disorder are themselves of course contested Words like mob demonstration and protest not to mention riot itself denote a particular perspective based on an elitist taxonomy for dealing with social and cultural phenomena in society Of primary concern is the way in which the text describes and designates crowd behaviour using the language of denigration metaphors of the primitive and animalistic brutal images and silences and where the mediation of the event is expressed in terms of the binary order disorder The contributors to this volume are interested in the analysis of the interaction of official political culture and crowd politics as represented in literature and orature and how such representations contribute to the discourses of authority and subversion of their period The essays are wide ranging and explore the phenomenon of riots in literature through studies of popular risings in Shakespeare Carlyle and the French Revolution the Rebecca Riots in Wales popular ballads and the Indian War of Independence in 1857 post partition riots in India and Pakistan in the 1960s township violence in South African fiction post 1948 the 1965 Watts riots in Los Angeles in detective fiction and avant garde disturbances in France of the 1920s and 1930s Throughout the book these essays focus attention on the tension filled relationship that is perceived between literature and discourses of power and popular resistance The Medieval Chronicle VII. Juliana Dresvina,Nicholas Sparks Nicholas Sparks,2011-04 There are several reasons why the chronicle is particularly suited as the topic of a yearbook In the first place there is its ubiquity all over Europe and throughout the Middle Ages chronicles were written both in Latin and in the vernacular and not only in Europe but also in the countries neighbouring on it like those of the Arabic world Secondly all chronicles raise such questions as by whom for whom or for what purpose were they written how do they reconstruct the past what determined the choice of verse or prose or what kind of literary influences are discernable in them Finally many chronicles have been beautifully illuminated and the relation between text and image leads to a wholly different set of questions The yearbook The Medieval Chronicle aims to provide a representative survey of the on going research in the field of chronicle studies illustrated by examples from specific chronicles from a wide variety of countries periods and cultural backgrounds The Medieval Chronicle is published in cooperation with the Medieval Chronicle Society *A Study Guide for Richard Llewellyn's "How Green Was My Valley"* Gale, Cengage Learning,2016-06-29 A Study Guide for Richard Llewellyn s

Ethnicity and Cultural Authority Daniel G. Williams, 2005-12-08 Longlisted for the Wales Book of the Year 2007 Writing in 1903 W E B Du Bois suggested that the goal for the African American was to be a co worker in the kingdom of culture He was evoking culture as a solution to the divisions within society thereby adopting in a very different context an idea that had been influentially expressed by Matthew Arnold in the 1860s Du Bois questioned the assumed universality of this concept by asking who ultimately is allowed into the kingdom of culture How does one come to speak from a position of cultural authority This book adopts a transatlantic approach to explore these questions It centres on four Victorian men of letters Matthew Arnold William Dean Howells W B Yeats and W E B Du Bois who drew on notions of ethnicity as a basis from which to assert their cultural authority In comparative close readings of these figures Daniel Williams addresses several key areas of contemporary literary and cultural debate The book questions the notion of the West as it appears and re appears in the formulations of postcolonial theory challenges the widespread tendency to divide nationalism into civic and ethnic forms and forces its readers to reconsider what they mean when they talk about culture identity and national literature

Key Features Offers a substantial innovative intervention in transatlantic debates over race and ethnicity Uses 4 intriguing authors to explore issues of national identity racial purity and the use of literature as a marker of cultural capital A unique focus on Celtic identity in a transatlantic context Sets up a dialogue between writers who believe in national identity and those who believe in cultural distinctiveness

Writing Wales, from the Renaissance to Romanticism Stewart Mottram, 2016-02-11 Writing Wales explores representations of Wales in English and Welsh literatures written across a broad sweep of history from the union of Wales with England in 1536 to the beginnings of its industrialization at the turn of the nineteenth century The collection offers a timely contribution to the current devolutionary energies that are transforming the study of British literatures today and it builds on recent work on Wales in Renaissance eighteenth century and Romantic literary studies What is unique about Writing Wales is that it cuts across these period divisions to enable readers for the first time to chart the development of literary treatments of Wales across three of the most tumultuous centuries in the history of British state formation Writing Wales explores how these period divisions have helped shape scholarly treatments of Wales and it asks if we should continue to reinforce such period divisions or else reconfigure our approach to Wales literary past The essays collected here reflect the full 300 year time span of the volume and explore writers canonical and non canonical alike George Peele Michael Drayton Henry Vaughan Katherine Philips and John Dyer here feature alongside other lesser known authors The collection showcases the wide variety of literary representations of Wales and it explores relationships between the perception of Wales in literature and the realities of its role on the British political stage
