numerous seminars on the subject This book is written along the lines of the Tao Te Ching Sun Tzu s Art of War Richard Bach s book Illusions or Journey to the Ancestral Self where one can go back to it many times and get something new and fascinating each time One reviewer said this book could be a playbook for life All reviewers said it was the most complete book they had ever seen on the subject The editors of Think and Grow Rich left out a lot of material they felt people weren t ready for This book fills in most of those gaps also We seek out problems for their gifts because we grow as we solve those problems You cannot solve a problem out of the same place it was created You must go to a new level of order Everything you see in this book and every human creation was sought out to solve some problem by someone in a state of confusion who didn t have the answer at first and asked new questions The Universe has benevolent intentions for you if you choose to let it work that way Your default setting is peace love joy healing beauty happiness satisfaction comfort contentment and everything that makes life worthwhile Only you can change the default settings You change them by invoking the Law of Attraction with intent You already have and are everything you could ever need want be do or have inside in the field of possibility Energy flows where attention goes What you concentrate on grows You can create anything you want You already create your world perhaps unconsciously This book is about becoming a conscious creator so you consciously choose what you will create and then becoming an effortless creator The Law of Attraction is very simple It is really a Law of Resonant Attraction Stop believing feeling and thinking about what you don t want and start believing feeling and thinking what supports you and what would support your growth You never want things as things you seek the feelings having the things will bring to you You can create those feelings right now What would it feel like if your dream was real right now What would you see hear and feel if you already had whatever you seek Spend as much time as you can in that state of being 90% of success is having a clear intent Take action as you feel guided to do so The intent of this book is to guide you into experiencing and realizing your dreams This book is very similar to Dowsing and Manifesting though it doesn t use dowsing language and Redneck Shaman though it isn t specifically shamanic The three authors differed on what the final product should look like so they each went in their own direction **The Manifestation Trilogy** Forbes Robbins Blair,2016-12-01
