What Happens At Midnight:

What Happens at Midnight Laura Chapman, 2016 **On the Brink of Paradox** Agustin Rayo, 2019-04-02 An introduction to awe inspiring ideas at the brink of paradox infinities of different sizes time travel probability and measure theory and computability theory This book introduces the reader to awe inspiring issues at the intersection of philosophy and mathematics It explores ideas at the brink of paradox infinities of different sizes time travel probability and measure theory computability theory the Grandfather Paradox Newcomb's Problem the Principle of Countable Additivity The goal is to present some exceptionally beautiful ideas in enough detail to enable readers to understand the ideas themselves rather than watered down approximations but without supplying so much detail that they abandon the effort The philosophical content requires a mind attuned to subtlety the most demanding of the mathematical ideas require familiarity with college level mathematics or mathematical proof The book covers Cantor's revolutionary thinking about infinity which leads to the result that some infinities are bigger than others time travel and free will decision theory probability and the Banach Tarski Theorem which states that it is possible to decompose a ball into a finite number of pieces and reassemble the pieces so as to get two balls that are each the same size as the original Its investigation of computability theory leads to a proof of Godel's Incompleteness Theorem which yields the amazing result that arithmetic is so complex that no computer could be programmed to output every arithmetical truth and no falsehood Each chapter is followed by an appendix with answers to exercises A list of recommended reading points readers to more advanced discussions The book is based on a popular course and MOOC taught by the author at MIT **Midnight's Warning** Dana Lindsley, 2021-03-03 An idyllic shoreline town A mysterious contagion of anxiety A shockwave of suspicion violence and desperation Everyone is affected As the small Connecticut town of Whistling Rocks descends deeper into chaos its residents face today's all too common issues how to live during a time of multiple crises and how to adapt to a dangerous changing world Midnight's Warning is filled with memorable characters JJ a young man with autism has uncanny intuition Three teenagers believe their morbid discovery in a park is causing the town's contagious anxiety Ricky a drifter turns to violence to relieve his angst and fears And a psychic foresees calamities to come *Self, Nation, Text in Salman Rushdie's "Midnight's Children"* Neil ten Kortenaar, 2004 Neil ten Kortenaar examines the key critical concepts associated with contemporary postcolonial theory including hybridity mimicry national allegory and cosmopolitanism through a close reading of Salman Rushdie's *Midnight's Children* He offers successive readings of Rushdie's novel first as an allegory of history then as a Bildungsroman and psychological study of the burgeoning of a national consciousness and finally as a representation of the nation He shows that the hybridity of Rushdie's fictional India is not created by different elements combining to form a single whole but rather by the relations among the elements Rushdie's India is more self-conscious than are communal identities based on language it is haunted by a dark twin called Pakistan it is a nation in the way England is a nation but is imagined against England it mistrusts the openness of Tagore's

Hindu India and it is at once cosmopolitan and a particular subjective location The citizen in turn is imagined in terms of the nation Saleem Sinai's heroic identification of himself with the state is beaten out of him until at the end he sees himself as the Common Man at the mercy of the state Self Nation Text in Salman Rushdie's *Midnight Children* explains the many historical and cultural references in a book that makes many demands on non Indian readers and will be of interest to all who teach postcolonial and postmodern literature and to their students graduate and undergraduate Moreover as an original argument about how nation states are imagined and how national consciousness is formed in the citizen it will be of interest to scholars in the area of cultural studies and postcolonial theory whether in history literature cultural studies or South Asian studies

Midnight's Orphans Glenn D'Cruz, 2006 This book is the first detailed study of Anglo Indians in literature Rather than simply dismissing the representation of Anglo Indians in literary texts as offensive stereotypes the book identifies the conditions for the emergence of these stereotypes through close readings of key novels such as *Bhowani Junction* *Midnight's Children* and *The Impressionist* It also examines the work of contemporary Anglo Indian writers such as Allan Sealy and Christopher Cyrill

Causation and Counterfactuals John Collins,Ned Hall,L. A. Paul,2004-06-25 One philosophical approach to causation sees counterfactual dependence as the key to the explanation of causal facts for example events c the cause and e the effect both occur but had c not occurred e would not have occurred either The counterfactual analysis of causation became a focus of philosophical debate after the 1973 publication of the late David Lewis s groundbreaking paper Causation which argues against the previously accepted regularity analysis and in favor of what he called the promising alternative of the counterfactual analysis Thirty years after Lewis s paper this book brings together some of the most important recent work connecting or in some cases disputing the connection between counterfactuals and causation including the complete version of Lewis s Whitehead lectures Causation as Influence a major reworking of his original paper Also included is a more recent essay by Lewis Void and Object on causation by omission Several of the essays first appeared in a special issue of the Journal of Philosophy but most including the unabridged version of Causation as Influence are published for the first time or in updated forms Other topics considered include the trumping of one event over another in determining causation de facto dependence challenges to the transitivity of causation the possibility that entities other than events are the fundamental causal relata the distinction between dependence and production in accounts of causation the distinction between causation and causal explanation the context dependence of causation probabilistic analyses of causation and a singularist theory of causation
