Dawn's Early Light Johnny Sundstrom, 2011-11-16 The year was 1849 The wagon train moved slowly along the parched Oregon Trail in the empty desolation that was to become known as southern Wyoming Martha Bradford was told she must discard either her cast iron cook stove or her pianola to lighten the burden for the oxen She has them both unloaded and then refuses to go on any further She declared that if the only things that made her life worth living were being left behind they'd just as well leave both the stove and the pianola and her with them This novel is based on the next six generations of her family and the first ranch settled in that part of the country Here are real cowboys and cowgirls Indians of the past and present a faith challenged evangelist a militant suffragette newspaper owner and many others linked together by their hard work rowdy pleasures their spiritual beliefs or non beliefs and stitched into a panoramic story quilt representing the dream of the Morning Star and its hopeful annunciation of a new day rising in the Old West

The Measured Word Kurt Brown, 2001 Though the interests of science and art frequently seem to inhabit opposite poles The Measured Word assembles a brilliant anthology of twelve essays that illumine the historic and newly emerging relationships between the poetic and scientific imaginations Assembling the writings of leading contemporary poets essayists and thinkers Kurt Brown highlights ways in which poets use scientific discoveries and mathematical ideas to their artistic advantage and offers insight on the recently apparent integration of technology and other discoveries into the postmodernist poetry Here are meditations on the similarities and differences between the poetic and scientific imagination on the poetic use of fractals on hypertext on the changing shape of poetry in the scientific age Commentary by Czech poet and immunologist Miroslav Holub Paul Lake Alison Hawthorne Deming Alice Fulton Forrest Gander and Stephanie Strickland among others presents a diverse selection of opinions These viewpoints are complemented by many careful innovative readings of individual poems informed by the sciences The writings in this

collection not only celebrate the advent of a new age of discovery but also identify the need for a revision of the western thinking that separates the mind and the heart replacing division with the reciprocity of mutual communication
