Contextual Theology Paul Duane Matheny, 2012-07-26 For centuries the global understanding of Church has been shaped by Western theological imperatives Yet today the decline of institutional religion in the West and the extraordinary growth of the Church of the global South mean that a radical movement beyond such theologies is required Paul Matheny argues that the Church would benefit by becoming more contextualized and less Western Contextual Theology is an attempt to address that issue and to examine how a reassessment of the relationship of the Gospel to cultural context can advance this critical and necessary development Through an accessible and critical approach Matheny considers the historical background to contextual theology In the same way he aims to show how to use contextual methods to think theologically and act missiologically in different cultural contexts
