of market parameters and social protectionist ideals this examination provides rich insights into how English schools have emancipatory capacity Autonomy Accountability and Social Justice makes a major theoretical contribution to understandings of how the market is working alongside the regulation of schooling and the implications of this for social justice By drawing on the experiences of those working in schools it demonstrates that the tensions associated with autonomy and accountability within the current education policy environment can be both productive and unproductive for social justice **JSL Vol 22-N4** JOURNAL OF SCHOOL LEADERSHIP,2012-09-25 The Journal of School Leadership is broadening the conversation about schools and leadership and is currently accepting manuscripts We welcome manuscripts based on cutting edge research from a wide variety of theoretical perspectives and methodological orientations The editorial team is particularly interested in working with international authors authors from traditionally marginalized populations and in work that is relevant to practitioners around the world Growing numbers of educators and professors look to the six bimonthly issues to deal with problems directly related to contemporary school leadership practice teach courses on school leadership and policy use as a quality reference in writing articles about school leadership and improvement *Communication and Education* Mary John O'Hair,Philip A.
