Translating Official Documents Translation Practices Explained:

Translating Official Documents Roberto Mayoral Asensio, 2014-07-16 Official translations are generally documents that serve as legally valid instruments. They include anything from certificates of birth, death or marriage through to academic transcripts or legal contracts. This field of translation is now as important as it is fraught with difficulties for it is only in a few areas that the cultural differences are so acute and the consequences of failure so palpable. In a globalizing world, our official institutions increasingly depend on translations of official documents but little has been done to elaborate the skills and dilemmas involved. Roberto Mayoral deals with the very practical problems of official translating. He points out the failings of traditional theories in this field and the need for revised concepts such as the virtual document, pragmatic constraints and risk analysis. He details aspects of the social contexts, ethical norms, translation strategies, different formats, fees, legal formulas and ways of solving the most frequent problems. Care is taken to address as wide a range of cultural contexts as possible and to stress the active role of the translator. This book is intended as a teaching text for the classroom, for self-learning or for professionals who want to reflect on their practice. Activities and exercises are suggested for each chapter and information is included on professional associations and societies across the globe.

Translation and Community Mustapha Taibi, 2024-12-13 Community or public service translation contributes to a more equitable and sustainable community by empowering minority groups such as migrants and refugees and is a growing area for both teaching and research within translation studies. Written by a leading authority with over 20 years of teaching experience and in consultation with a range of academics running major courses across the globe, this is the first accessible and interactive introductory textbook to this growing area. It provides step-by-step guidance to students undertaking an undergraduate or postgraduate course covering community translation, public service translation, translation as social action or translation as a social service in multilingual and multicultural societies. The book covers key issues in this area of translation practice including its distinctive features, challenges and requirements, role and ethical issues, common text types, translation strategies, translation revision and quality assurance and relationships with end users. Including examples of a range of different text types, suggested activities and readings at the end of each chapter and additional resources and activities on the Routledge Translation Studies portal, this is the essential introduction for all students of community and public service translation.

Covering the key genres of audio description and supplemented with

exercises and discussion points throughout this is the essential textbook for all students and translators involved in the practice of audio description Accompanying film clips are also available at <https://www.routledge.com/products/9781138848177> and on the Routledge Translation Studies Portal <http://www.routledge.com/textbooks/translationstudies>
