The WTO Dispute Settlement Procedures Gabrielle Marceau, World Trade Organization, 1995

Negotiating the Review of the WTO Dispute Settlement Understanding Thomas Alexander Zimmermann, 2006

Since the establishment of the WTO on 1 January 1995 the dispute settlement mechanism has arguably been the most active part of the Organization In the first ten years up to 31 December 2004 a total of 324 consultation requests have been notified to the WTO Dispute settlement practice has thus contributed to the evolution of the multilateral trading system even at times when political negotiations made little head way Since late 1997 Members have engaged under different mandates in negotiations on improvements and clarifications to the dispute settlement mechanism So far none of these efforts have borne fruit and all the negotiating deadlines have lapsed without success Currently negotiations are continuing however without any specific time limit This book reviews the DSU reform negotiating process since 1998 It discusses the proposals that Members have submitted under the Doha mandated review in 2002 and 2003 w

The Principles and Practice of International Aviation Law Brian F. Havel, Gabriel S. Sanchez, 2014-03-31

The Principles and Practice of International Aviation Law provides an introduction to and demystification of the private and public dimensions of international aviation law Unlike other global sectors the air transport industry is not governed by a discrete area of the law but by disparate transnational regulatory instruments Everything from the routes that an international air carrier can serve to the acquisition of its fleet and its liability to passengers and shippers for incidents arising from its operations can be the object of bilateral and multilateral treaties that represent diverse and often contradictory interests Beneath this are hundreds of domestic regulatory regimes that also apply national and international rules in disparate ways The result is an agglomeration of legal cultures that can leave even experienced lawyers and academics perplexed By combining classical doctrinal analysis with insights from newer disciplines such as international relations and economics the book maps international aviation law's complex terrain for new and veteran observers alike

The Peaceful Settlement of International Disputes Yoshifumi Tanaka, 2018-01-11

a critical and comprehensive understanding of issues in a field which has grown exponentially in its importance particularly over the last decade focusing on the European Union Australia North America Asia and China The book approaches the field of foreign direct investment from both academic and practical viewpoints and analyzes different bilateral regional and multinational agreements often yielding competing perspectives The academic perspective yields a strong conceptual foundation to often misunderstood elements of international investment law while the practical perspective aids those actively pursuing foreign direct investment in better understanding the landscape identifying potential conflicts which may arise in more accurately assessing the risk underlying the issues in conflict and in resolving those issues Thorny issues relating to global commerce sovereignty regulation expropriation dispute resolution and investor protections are covered depicting how they have developed and are applied in different regions of the world These different treatments ensure that readers are able grasp the subject matter at multiple levels and provide a comprehensive overview of developments in the field of foreign direct investment
