The Wto Primer Tracing Trades Visible Hand Through Case Studies:

The WTO Primer R. Fulton, K. Buterbaugh, 2007-12-25 This book describes the WTO from its post WWII beginnings in the General Agreement on Tariffs and Trade through a series of negotiated enhancements of these agreements. It describes the WTO's origins, structure, and growing pains as it has had to face challenges from within and without. *Negotiating Membership in the WTO and EU* Jamie Scalera, 2017-02-17 With the accession of Afghanistan in 2016, the World Trade Organization (WTO) numbered 164 members, with nineteen other states in line to join. The WTO is certainly not alone in its growth; though the Organization for Economic Cooperation and Development (OECD), the North Atlantic Treaty Organization (NATO), and the European Union (EU) are all expanding, with dozens of states continuing to negotiate their potential membership. What impact does membership in international organizations really have? Why do some states have a seemingly easy path to joining international organizations while others find the process nearly impossible? What implications do these difficult accession processes have on the domestic and international politics of the acceding states? The author presents the two-level theory of accession, which highlights factors at the domestic level and international organization level to explain how accession processes in the WTO and EU vary from state to state and the impact of these variations. In so doing, this book provides a unique perspective on the topic of membership in international organizations. *Fast Track* Hal S. Shapiro, John Gilliland, 2023-09-14 Fast Track is the story of the rise and fall of U.S. leadership in international trade. Fast Track authority is the process Congress devised to approve trade agreements, giving Congress input into negotiations in exchange for a timely up or down vote. Foes derided it as a procedural gimmick, but it helped forge a bipartisan consensus on trade policy. Despite its successes, it was also fragile. The bipartisan consensus has since frayed, and Fast Track has lapsed, allowing other countries to fill the void. This book discusses how Fast Track worked and offers a path for rebuilding consensus in favor of its renewal.

In his Preface to the 1st edition, Editor in Chief Lester Kurtz wrote: "The problem of violence poses such a monumental challenge at the end of the 20th century that it is surprising we have addressed it so inadequately. We have not made much progress in learning how to cooperate with one another more effectively or how to conduct our conflicts more peacefully. Instead, we have increased the lethality of our combat through
