Theft Of An Idol By Brass Paul R 1997 Paperback:

Hate Spin Cherian George, 2016-09-23 How right wing political entrepreneurs around the world use religious offense both given and taken to mobilize supporters and marginalize opponents In the United States elements of the religious right fuel fears of an existential Islamic threat spreading anti Muslim rhetoric into mainstream politics In Indonesia Muslim absolutists urge suppression of churches and minority sects fostering a climate of rising intolerance In India Narendra Modi's radical supporters instigate communal riots and academic censorship in pursuit of their Hindu nationalist vision Outbreaks of religious intolerance are usually assumed to be visceral and spontaneous But in Hate Spin Cherian George shows that they often involve sophisticated campaigns manufactured by political opportunists to mobilize supporters and marginalize opponents Right wing networks orchestrate the giving of offense and the taking of offense as instruments of identity politics exploiting democratic space to promote agendas that undermine democratic values George calls this strategy hate spin a double sided technique that combines hate speech incitement through vilification with manufactured offense taking the performing of righteous indignation It is deployed in societies as diverse as Buddhist Myanmar and Orthodox Christian Russia George looks at the world's three largest democracies where intolerant groups within India's Hindu right America's Christian right and Indonesia's Muslim right are all accomplished users of hate spin He also shows how the Internet and Google have opened up new opportunities for cross border hate spin George argues that governments must protect vulnerable communities by prohibiting calls to action that lead directly to discrimination and violence But laws that try to protect believers' feelings against all provocative expression invariably backfire They arm hate spin agents' offense taking campaigns with legal ammunition Anti discrimination laws and a commitment to religious equality will protect communities more meaningfully than misguided attempts to insulate them from insult

New Cultural Identitarian Political Movements in Developing Societies Sebastian Schwecke, 2012-12-06 Applying an intercultural and comparative theoretical approach across Asia and Africa this book analyses the rise and moderation of political movements in developing societies which mobilise popular support with references to conceptions of cultural identity The author includes not only the Hindu nationalist movement but also many Islamist political movements in a single category New Cultural Identitarian Political Movements NCIPM Demonstrating significant similarities in the pattern of evolution between these and European Christian Democracy the book provides an instrument for the analysis of these movements outside the parameters of the fundamentalism debate The book looks at a number of key variables for understanding the evolution of NCIPM and it goes on to analyse the transition of developing societies from rent based political economies to capitalism and the partial failure of this transition process It argues that there is a need to incorporate economic and class analysis in the study of political processes in developing societies against the continuing emphasis on cultural factors associated with the cultural turn of social sciences The book is an interesting contribution to studies in South Asian Politics as well as Comparative Politics

Routledge Handbook of Race and Ethnicity in Asia Michael Weiner, 2021-09-30 The Routledge Handbook of Race and Ethnicity in Asia introduces theoretical approaches to the study of race ethnicity and indigeneity in Asia beyond those commonly grounded in the Western experience The volume s twenty eight chapters consider not only the relationship between ethnic or racial minorities and the state but social relations within and between individual and transnational communities These shape not only the contours of governance but also the means by which knowledge of national identity self and other have been constructed and reconstructed over time Divided into four sections it provides holistic and comparative coverage of South South East and East Asia as well as Australasia and Oceania an area that extends from Pakistan in the West to Hawai i in the East Contributors to this handbook offer a variety of disciplinary and interdisciplinary perspectives opening a domain of scholarship wherein the relationship between phenotype and racism is less pronounced than European and North American approaches which have often privileged the so called colour stigmata leading to further exclusions of particular ethnic racial and indigenous communities This volume seeks to overcome racism and white ideologies embedded in theories of race and ethnicity in Asia proving a valuable resource to both students and scholars of comparative racial and ethnic studies international relations and human rights *Peacebuilding in Deeply Divided Societies* Fletcher D. Cox, Timothy D. Sisk, 2017-07-04 This book explores a critical question in the wake of identity based violence what can internal and international peacebuilders do to help deeply divided societies rediscover a sense of living together In 2016 ethnic religious and sectarian violence in Syria and Iraq the Central African Republic Myanmar and Burundi grab headlines and present worrying scenarios of mass atrocities The principal concern which this volume addresses is social cohesion relations within society and across deep divisions and the relationship of individuals and groups with the state For global peacebuilding networks the social cohesion concept is a leitmotif for assessment of social dynamics and a strategic goal of interventions to promote resilience following violent conflict In this volume case studies by leading international scholars paired with local researchers yield in depth analyses of social cohesion and related peacebuilding efforts in seven countries Guatemala Kenya Lebanon Nepal Nigeria Myanmar and Sri Lanka **American Book Publishing Record** , 1997

Political Tolerance in the Global South Sten Widmalm, 2016-05-05 What makes people agree to the extension of political rights to those they clearly dislike This book moves beyond the extensive research on this question in western contexts to focus on the global south offering unique empirical studies of political tolerance in plural societies where poverty is prevalent and democratic institutions can often be fragile Based on extensive data gathered in India Pakistan and Uganda this volume offers an account of the factors that shape the foundations of a society and its capacity to be democratic but where the need for the protection of human rights is great and where the state is either weak or even constitutes a counter force against the rights of individuals and groups Combining large scale survey data with in depth interviews in each national setting the author exemplifies the great variation of factors which are related to political tolerance shedding light on the

fundamental patterns existing in the organisation of state society relations and the ways in which they produce certain results owing to the manner in which the forces of modernisation operate A broad and empirically informed study of what shapes the foundations of a democratic society in modernising nations Political Tolerance in the Global South will appeal to scholars of sociology and political science with interests in democracy human rights diversity and tolerance **Access to Power** Ijlal Naqvi, 2022-09-16 One of Pakistan's largest problems is its inability to produce enough electricity In Access to Power Ijlal Naqvi explores state capacity in Pakistan by following the material infrastructure of electricity across the provinces and down into cities and homes He argues that the national challenges of budgetary constraints and power shortages directly result from conscious strategic decisions that are integral to Pakistan's infrastructural state Looking through the lens of the electrical power sector this book reveals how Pakistan actually functions and to whose benefit
