Theology Music And Time Cambridge Studies In Christian Doctrine:

Theology, Music and Time Jeremy Begbie, 2000-08-15 Theology Music and Time aims to show how music can enrich and advance theology extending our wisdom about God and God's ways with the world. Instead of asking what can theology do for music, it asks what can music do for theology. Jeremy Begbie argues that music's engagement with time gives the theologian invaluable resources for understanding how it is that God enables us to live peaceably with time as a dimension of the created world. Without assuming any specialist knowledge of music, he explores a wide range of musical phenomena: rhythm, metre, resolution, repetition, improvisation, and through them opens up some of the central themes of the Christian faith: creation, salvation, eschatology, time and eternity, Eucharist, election, and ecclesiology. He shows that music can not only refresh theology with new models but also release it from damaging habits of thought which have hampered its work in the past.

Theology of Wagner's Ring Cycle Richard H. Bell, 2020 Vol 1 Wagner's Ring is one of the greatest of all artworks of Western civilization but what is it all about? The power and mystery of Wagner's creation was such that he himself felt he stood before his work as though before some puzzle. A clue to the Ring's greatness lies in its multiple avenues of self-disclosure and the corresponding plethora of interpretations that over the years has granted ample scope for directors and will no doubt do so well into the distant future. One possible interpretation which Richard Bell argues should be taken seriously is the Ring as Christian theology. In this first of two volumes Bell considers among other things how the composer's Christian interests may be detected in the forging of his Ring, looking at how he appropriated his sources whether they be myths and sagas, writers, poets, or philosophers and considering works composed around the same time, especially his Jesus of Nazareth.

Theology of Wagner's Ring Cycle II Richard H. Bell, 2021-09-30 Wagner's Ring addresses fundamental concerns that have faced humanity down the centuries such as power and violence, love and death, freedom and fate. Further, the work seems particularly relevant today, addressing as it does the fresh debates around the created order, politics, gender, and sexuality. In this second of two volumes on the theology of the Ring, Richard Bell argues that Wagner's

approach to these issues may open up new ways forward and offer a fresh perspective on some of the traditional questions of theology such as sacrifice redemption and fundamental questions about God A linchpin for Bell s approach is viewing the Ring in the light of the Jesus of Nazareth sketches which he argues confirms that the artwork does indeed address questions of Christian theology both for those inside and those outside the church **McMaster Journal of Theology and Ministry:**

Volume 14, 2012-2013 Lois Dow,2014-03-18 The McMaster Journal of Theology and Ministry is an electronic and print journal that seeks to provide pastors educators and interested lay persons with the fruits of theological biblical and professional studies in an accessible form Published by McMaster Divinity College in Hamilton Ontario it continues the heritage of scholarly inquiry and theological dialogue represented by the College s previous print publications the Theological Bulletin Theodolite and the McMaster Journal of Theology All Shall be Well Gregory MacDonald,2011-08-25

Universalism runs like a slender thread through the history of Christian theology Over the centuries Christian universalism in one form or another has been reinvented time and time again In this book an international team of scholars explore the diverse universalisms of Christian thinkers from the Origen to Moltmann In the introduction Gregory MacDonald argues that theologies of universal salvation occupy a space between heresy and dogma Therefore disagreements about whether all will be saved should not be thought of as debates between the orthodox and heretics but rather as in house debates between Christians The studies in this collection aim in the first instance to hear understand and explain the eschatological claims of a range of Christians from the third to the twenty first centuries They also offer some constructive critical engagement with those claims *The Lion, the Dove, & the Lamb* A. Bryden Black,2015-06-22 How might the formal Christian doctrine of the Trinity make a real concrete difference in the lives of individuals and in the life of the church This book proposes there are two parts to answering this important but elusive question In the first place how on earth did the Early Church actually reach its conclusions about this understanding of God and why What s the real point behind their endeavors How might we

apprehend what is otherwise sheer mystification or even nonsense in some people s minds Arising out of the answers to such questions we can secondly construct an appropriately simple model of the Trinity By means of this model we can understand with sufficient justice the ways the triune God has come among us in our human history ways that are still ongoing today For the proposed model allows us to begin to appreciate the true mystery of the Christian Faith while also making a practical difference to the lives of Christian discipleship in prayer worship and mission Sonic Icons Sarah Bakker

Kellogg,2024-11-05 A vivid artfully crafted and deeply hopeful account of one community s struggle to rediscover and reinvent itself after a century of genocidal loss dispossession and displacement To the extent that Middle Eastern Christians register in Euro American political imaginaries they are usually invoked to justify Western military intervention into countries like Iraq or Syria or as an exemption to anti Islamic immigration policies because of an assumption that their Christianity makes them easily assimilable in the so called Judeo Christian West Using the tools of multisensory ethnography *Sonic Icons*

uncovers how these views work against the very communities they are meant to benefit Through long term fieldwork in the Netherlands among Syriac Orthodox Christians also known as Assyrians Aramaeans and Syriacs Bakker Kellogg reveals how they intertwine religious practice with political activism to save Syriac Christianity from the twin threats of political violence in the Middle East and cultural assimilation in Europe In a historical moment when much of their tradition has been forgotten or destroyed their story of self discovery is one of survival and reinvention By reviving the late antique Syriac liturgical tradition known as the Daughters and Sons of the Covenant they seek a complex form of recognition for what they understand to be the ethical core of Christian kinship in an ethnic as well as in a religious sense despite living in societies that do not recognize this unhyphenated form of ethnoreligiosity as a politically legitimate mode of public identity Drawing on both theological and linguistic understandings of the icon Sonic Icons rethinks foundational theoretical accounts of ethnicization racialization and secularization by examining how kinship gets made claimed and named in the global politics of minority recognition The icon as a site of communicative and reproductive power illuminates how these processes are shaped by religious histories of struggle for sovereignty over the reproductive future

The Dramatizing of Theology Matthew S. Farlow, 2017-07-14 Matthew Farlow traces the thoughts of Balthasar and Barth so as to enter into theological truth of God's Being in Act This exploration embarks on a journey into the reality of our Triune God who has engaged his creation so as to elicit fellow actors God seeking out humanity is God with us a truth that not only informs our theological endeavors but invites us into the dramatic performance of reconciliation As Farlow illumines God is an acting God who seeks fellow participants in his ongoing drama of salvation Through the dramatizing of theology the church and her theologians come to realize God's threefold movement revelation invitation and reconciliation It is a unified act that startles humanity and thus theology out of its spectator's seat so as to drag it onto the world's stage As Farlow discusses it is through the dramatizing of theology that we find ourselves best equipped to participate faithfully in the role of a lifetime

"In the End, God" John AT Robinson, 2011-05-26 Death judgement heaven and hell these are the Four Last Things traditionally linked together under the heading of Eschatology In this book John Robinson examines them all with trenchancy and lucidity providing a new and vital understanding of how these themes relate to contemporary Christian life In the End God identifies a gap that exists in the treatment of eschatology within the Christian faith As Robinson points out eschatology had traditionally dealt with the last things in a way that is remote and removed from everyday life and Christianity and the goal of his book is to make eschatology fully relevant to the modern world Although it is commonly held that eschatology within modern Christianity is centred on the fact and moment of death Robinson shows that the true nature of eschatology is something quite different It is not about the last things after everything else but rather is about the relation of all things to the last things or as it were about the lastness of all things Revealing the foundation of biblical eschatology to be the experience of God by the community of faith Robinson calls readers to embrace the eschatological vision of the Bible but to do so in a way that is alert to its mythic character In the course of these explorations he also lays bare his own theology of universal salvation However contrary to what one may expect this universalism is one that seeks to take both human freedom and the reality of hell with the utmost seriousness This special edition of John A T Robinson s classic text also includes an extended introductory essay by Professor Trevor Hart of the University of St Andrews and an exchange between Robinson and Thomas F Torrance first published in 1949 in the Scottish Journal of Theology

Why God Makes Sense in a World That Doesn't Gavin Ortlund, 2021-10-26 It has never been more important to articulate the wonder and enchantment of the Christian message Yet the traditional approaches of apologetics are often outmoded in an age of profound disenchantment and distraction unable to meet this pressing need This winsome apologetics book for a new generation makes the case that Christianity offers a compelling explanatory framework for making sense of our world Pastor and writer Gavin Ortlund believes it is essential to appeal not only to the mind but also to the heart and the imagination as we articulate the beauty of the gospel Why God Makes Sense in a World That Doesn't reimagines four classical theistic arguments cosmological teleological moral and Christological making a cumulative case for God as the best framework for understanding the storied nature of reality The book suggests that Christian theism can explain such things as the elegance of math the beauty of music and the value of love It is suitable for use in classes yet
