Disability and Political Representation Elizabeth Evans, Stefanie Reher, 2024-03-15 Disability and Political Representation explores how disabled people experience the various stages and aspects of the representation process drawing upon extensive empirical research and a variety of qualitative and quantitative data It discusses why increasing the number of disabled politicians matters not only as a matter of justice and equality but also to better represent the issues and interests of importance to disabled people Evans and Reher identify a variety of ableist barriers prevent disabled people from fully participating in the political process from disenfranchisement and inaccessible polling stations to prejudice within parties and a lack of financial support for candidates who require adjustments The work shows that while the preferences of disabled citizens are currently under represented in parliament disabled representatives often draw on their lived experience to advocate for their interests The concept of experiential representation is developed to help scholars and practitioners better navigate the concept of political representation specifically as it relates to disability Thus the book explores how disability can help us think about the contours of political representation It presents and analyses a range of diverse and original data including qualitative data generated from interviews with disabled politicians and activists in the UK

quantitative survey data on the political attitudes and participation of disabled citizens from across Europe and data from survey experiments examining voter perceptions of disabled politicians in the UK and the US Women, Partisanship, and the Congress J. Resisting Citizenship Martha A. Ackelsberg, 2013-01-11 Political participation in America supposedly the world's strongest democracy is startlingly low and many of the civil rights and economic equity initiatives that were instituted in the 1960s and 70s have been abandoned as significant proportions of the populace seem to believe that the civil rights battle has been won However rates of collective engagement like community activism are surprisingly high In Resisting Citizenship renowned feminist political scientist Martha Ackelsberg argues that community activism may hold

important clues to reviving democracy in this time of growing bureaucratization and inequality This book brings together many of Ackelsberg's writings over the past 25 years combining her own field work and interviews with cutting edge research and theory on democracy and activism She explores these efforts in order to draw lessons and attempt to incorporate knowledge about current notions of democracy from those who engage in non traditional participation those who have in many respects been relegated to the margins of political life in the United States Women in Congress, 1917-2006 Matthew Andrew Wasniewski, 2006 Contains profiles contextual essays historical images and appendices that provide information about the 229 women who have served in Congress from 1917 through 2006 **Congress and Its Members** Roger H.
