Wonderful Ethiopians of the Ancient Cushite Empire Drusilla Dunjee Houston, 2025-08-28 The minds of men today are stirred with eager questionings about the origin of civilization and about the part the different races of mankind played in its development from primitive ages The remains that archaeologists are uncovering in Egypt old Babylonia and South America reveal that there were significant factors in the first development of the arts and sciences that history has failed to make clear Scientists are busy today studying the types of those old civilizations and comparing them with those of the present Our modern systems do not function for the masses to give them development and happiness as did some of the ancient cultures Books upon the early life of man are very hard to secure Few have been written that are authentic because it requires technical skill to assemble and condense such matter Exhaustive research work is necessary to secure this kind of information with only a line here and there in modern books to help the reader to reach definite conclusions Only the trained mind holds the multitude of details and possesses the ability to impartially weigh and classify the facts that prove the influence of the races upon the civilization of today The quest for the innumerable and startling facts of the succeeding volumes arose much as did the motive of Schliemann to seek the buried ruins of Troy from the oft repeated expression found by the author in research work that what the ancients said about the Ethiopians was fabulous Curiosity was aroused to go back over the story of the ancients to agree or draw new conclusions The finds were so astonishing that the vow was made to spend upon this study many years if necessary Like the Quest of the Holy Grail the aim became sacred for the trail led backward into the heart of all that the world holds most precious and to the primal roots from which all culture sprang At first the reading of an afternoon in the average public library would hardly reveal a line to the credit of the Ethiopian Sometimes a ten volume set of modern books might yield only a few paragraphs but the vow and the richness of the finds gleaming like diamonds led the eager searcher on The trail was followed into the dry dusty books of the ancients where the path widened and truth was revealed that will answer some of the baffling problems of civilization today Here were missing links of the chain of culture vainly sought for elsewhere Our story will deal with the ancient Cushite empire of Ethiopians that covered three continents and held unbroken sway for three thousand years We will visit old Ethiopia where as Herodotus said the gods delighted to banquet with the pious inhabitants We will study the land and the ancient race The Old Race will next win our attention that Petrie found in Egypt of distinct and unique culture who were the people of the earlier and superior civilization of the first dynasties Down through this prehistoric vista we see Happy Araby with her brilliant primitive culture and her unrivalled literature of later days On the screen flashes the rich and surpassing culture of old Chaldea which belonged to the ancient Cushite empire of Ethiopians Next comes veiled and mysterious India the scene of charming story and magic fable with her subtle mysticism and philosophy Tarrying a while with the conquest and life of the ancient Medes and Persians the trail runs far afield into the dominions of Western Europe and the striking questions array themselves

demanding to be answered Who were the Celts Who were the Teutons and what was the origin of the so called Aryan race The author was as much astounded as will be the reader as to what this study reveals It leaves us wondering if there is any Aryan race We learn in the study of the races of Western Europe to understand the hatreds of Europe that underlaid the world war We learn that when the Celt and Teuton call the Ethiopians of the new world Uncle and Auntie they are using titles that are scientifically true Our story passes on to another remnant of the ancient Cushite empire that baffling race the Iberians now represented by the Basques then to the Berbers of North Africa another branch of the Cushite race Some scientists have called them the descendents of the People of Atlantis Next succeed the singular facts about the life of the mysterious Etruscans of old Italy who were the teachers of the Romans then we follow the life and tragedy of the fleeting Pelasgians who were the fountain out of which later Greek culture welled They were the people of the legends of Greek mythology It is almost impossible to find anything but scanty fragments in the world s literature about any of these people of pre historic days but our text has compiled these fragments so many of them as to form fascinating chapters Today all of these subjects remain unexplained mysteries in the average book We dwell for a while on the marvels of the lost civilization of the gean and stop to study the Greece of Homer and the meaning of the Greek legends All having direct relation to the ancient Cushites Historic Greece in all her glory but viewed from new angles passes before us with the older and superior civilization of Asia Minor which has been almost entirely overlooked in modern literature Next we come to the fact that the Phoenicians called themselves Ethiopians and that the Hebrew writers gave them the same name then we reflect upon the strange relationship of the family of Cushite tongues to the so called Indo European group of languages The trail leads us high up to where we get a breathless view of the astounding Ethiopian religion which gives us the answer to many strange and incomprehensible traits in the Ethiopian of today Next follows the chapter on the Wonderful Ethiopians who produced fadeless colors that have held their hues for thousands of years who drilled through solid rock and were masters of many other lost arts and who many scientists believe must have understood electricity who made metal figures that could move and speak and may have invented flying machines for the flying horse Pegasus and the ram of the golden fleece may not have been mere fairy tales Next out of the forgotten wastes of the dark continent rise before us ancient African empires representing other civilizations of the time of the Cretan age Then across the screen comes flashing the Ancient Cushite Trade Routes which contrary to our notion were the medium by which rich and varied products were interchanged

Wonderful Ethiopians of the Ancient Cushite Empire Drusilla Dunjee Houston,1985 First published in 1926 Drusilla Dunjee Houston a self taught historian describes the origin of civilization and establishes links among the ancient Black populations in Arabia Persia Babylonia and India In each case she concludes that the ancient Blacks who inhabited these areas were all culturally related
