The Long War - Insurgency, Counterinsurgency and Collapsing States Mark T. Berger, Douglas A. Borer, 2013-09-13 The rise and fall of the Cold War coincided with the universalization and consolidation of the modern nation state as the key unit of the wider international system A key characteristic of the post Cold War era in which the US has emerged as the sole superpower is the growing number of collapsing or collapsed states A growing number of states are or have become mired in conflict or civil war the antecedents of which are often to be found in the late colonial and Cold War era At the same time US foreign policy and the actions of other organizations such as the United Nations may well be compounding state failure in the context of the post 9 11 Global War on Terror GWOT or what is also increasingly referred to as the Long War The Long War is often represented as a new era in warfare and geopolitics This book acknowledges that the Long War is new in important respects but it also emphasizes that the Long War bears many similarities to the Cold War A key similarity is the way in which insurgency and counterinsurgency were and continue to be seen primarily in the context of inter state rivalry in which the critical local or regional dynamics of revolution and counter revolution are marginalized or neglected In this context

American policy makers and their allies have again erroneously applied a grand strategy that suits the imperatives of conventional military and geo political thinking rather than engaging with what are a much more variegated array of problems facing the changing global order This book provides a collection of well integrated studies that shed light on the history and future of insurgency counterinsurgency and collapsing states in the context of the Long War This book was previously published as a special issue of Third World Quarterly American Cinematographer ,1921 The War on Truth Neil Mackay,2006 The War on Truth investigates all aspects of the lead up to the war in Iraq its execution and its aftermath Neil MacKay contends that the public was systematically fed untruths in a manner that questions what kind of democracy we really have MacKay award winning investigative journalist for Scotland s Sunday Herald newspaper has covered the West s intelligence agencies for many years In this book he questions why intelligence missed 9 11 and why the best funded intelligence networks in history got things so badly wrong The WMD debate is also covered MacKay s extensive contacts in the intelligence community make a telling contribution to this investigation and we see an intimate picture of how intelligence is gathered how it is interpreted and why things go wrong We also gain an insight to Neo Cons the radical think tank that surround George W Bush and some of whom stated before 9 11 that the US needed another Pearl Harbor to condition the American people and their allies into supporting war against Saddam Hussein Author Neil MacKay is a three times finalist as British Reporter of the Year in the British Press Awards Britain s equivalent of the Pulitzer Prize MacKay revealed the identity of the Omagh bomber exposed the British Army colonel who used loyalist terrorists as proxy assassins throughout the Troubles in Northern Ireland and unmasked Stakeknife the highest ranking British army spy inside the IRA His investigations into the war on terror and the invasion of Iraq have won international acclaim More than 200 000 US readers regularly turn to his stories on the internet every Sunday In 1999 MacKay famously wrote an article based on briefings with CIA operatives in Pakistan that reported that al Qaeda and Osama bin Laden planned to use planes to attack mainland America He has appeared on TV and radio regularly as a commentator in the UK France Italy Japan America Canada South America Australia New Zealand Germany and throughout the Middle East John Pilger Neil s masterly and prodigious scoops are the stuff of newspaper legend Truthout org the gold standard of investigative journalists **REVIEWS** John Pilger Neil s masterly and prodigious scoops are the stuff of newspaper legend British Press Awards the cool journalist the guy who s first with the news Truthout org the gold standard of investigative journalists Library of the World's Best Mystery and Detective Stories Julian Hawthorne,1907 **Games & Puzzles** ,1977 **Library of the World's Best Mystery and Detective Stories: English-Scotch : R.
