Here Lies Hugh Glass

Jon T. Coleman, 2025-09-23 In the summer of 1823 a grizzly bear mauled Hugh Glass

The animal ripped the trapper up carving huge hunks from his body Glass's fellows rushed to his aid and slew the bear but Glass's injuries mocked their first aid The expedition leader arranged for his funeral two men would stay behind to bury the corpse when it finally stopped gurgling the rest would move on Alone in Indian country the caretakers quickly lost their nerve They fled taking Glass's gun knife and ammunition with them But Glass wouldn't die He began crawling toward Fort Kiowa hundreds of miles to the east and as his speed picked up so did his ire The bastards who took his gear and left him to rot were going to pay Here Lies Hugh Glass springs from this legend The acclaimed historian Jon T. Coleman delves into the accounts left by Glass's contemporaries and the mythologizers who used his story to advance their literary and filmmaking careers A spectacle of grit in the face of overwhelming odds Glass sold copy and tickets But he did much more Through him the grievances and frustrations of hired hunters in the early American West and the natural world they traversed and explored bled into the narrative of the nation A marginal player who nonetheless sheds light on the terrifying drama of life on the frontier Glass endures as a consummate survivor and a complex example of American manhood Here Lies Hugh Glass a vivid often humorous portrait of a young nation and its growing pains is a Western history like no other

Hurricane

Almanac

Bryan Norcross, 2007-05-29 Essential Information from CBS News Hurricane Analyst Bryan Norcross's pioneering and courageous TV coverage of Hurricane Andrew in 1992 helped millions of people in Florida cope with the killer storm This

revised and updated version of last year's popular almanac adds detailed stories of the powerful hurricanes of the past that would be catastrophes if they happened today and explores how explosive coastal development during a time of relatively few hurricanes has set the stage for mega disasters. If hurricanes make landfall today at the rate they did in much of the twentieth century, how could we prevent the unimaginable destruction? A new section will also help you better understand hurricane advisories. Bryan Norcross's Hurricane Almanac is two books in one. The first half is hurricane science, history and perspectives on how we as a society deal with hurricanes. The second half is a personal guide to Living Successfully in the Hurricane Zone. In addition to reviewing and explaining the relatively mild 2006 hurricane season, it looks forward to hurricane seasons to come, highlights the fascinating history of hurricanes interacting with civilization and details our rapidly increasing ability, but still with limitations, to predict the severity and tracks of storms. With preparation checklists and shopping lists, an easy-to-understand guide to the technical information coming from the National Hurricane Center and critical practical information, Hurricane Almanac is your essential guide to coping with Mother Nature's greatest storms. A provocative chapter entitled How I'd Do It Better details Norcross's ideas for a better hurricane system. Family Communications, Evacuation Decision making, Staying in a House, Staying in an Apartment, Shutters, Hurricane proof Windows, Backup Power, Generators, Computer Hurricane Plan, Post storm Air Conditioning, Candles, Pool Preparation, Pets, Boats, Cars and Businesses Insurance.
