Walking Through Walls And Other Impossibilities The Hybrid Agenda:

Walking Through Walls and Other Impossibilities Milton E Brener, 2011-06-09 The goal of the aliens among us is not the study of Earth for purely academic purposes It is something more vital to the aliens and more portentous for us The picture that emerges from much research makes sense of several aspects of the alien presence previously quite puzzling They apparently are a dying race inhabiting a dying planet They have undoubtedly mastered physical forces and phenomena of which we have not even dreamed But it has come at a terrible cost Their emotional life has been all but lost existing only as a faint remnant from a long distant past They may pity our hopelessly primitive technology but they envy us our robust emotional life Like all living things everywhere they live for the perpetuation of their genes They do not hate us nor do they seek our destruction They seek to create a race of hybrids combining their scientifically superior minds with our rich emotional makeup The ridicule of the entire subject by the government and other forces fearful of upheaval in our society has aggravated the suffering of those chosen and victimized by the aliens who apparently seek ineptly sometimes to minimize it The author combines this scholarly approach with an almost folksy narrative style to make *Walking Through Walls* a very readable and approachable treatise on the phenomena as good as any book on the subject and far more skillfully written than most including those Brener has referenced most frequently Bud Hopkins *Intruders* and Philip Corso's *The Day after Roswell* Blue Ink Review

The Encyclopedia of Moon Mysteries Constance Victoria Briggs, 2019-03-19 Our moon is an enigma The ancients viewed it as a light to guide them in the darkness and a god to be worshipped In modern times it has been taught that the Moon is simply a dead rock that is caught in Earth's gravity with no activity As a researcher of metaphysical paranormal and cosmic subjects I have come across stories and information about the Moon that tell us that indeed there is activity there and there has been for generations Just who or what is causing the commotion is a mystery There are stories that suggest that the Moon is home to extraterrestrials theories that it is not a natural satellite tales of anomalous lights and tales that NASA astronauts saw extraterrestrial ships and ruins of an ancient civilization there There is a rumor that Apollo 13 was saved by extraterrestrials Another story states that there are extraterrestrial bases on the Moon There is even a tale that states that a part of the kingdom of Atlantis was once located there Some even believe that there are cities beneath the surface of the Moon There is an interesting account of a government employee using remote viewing as a means of seeing what is on the Moon His experience is eye opening This is just a sample of the information that will be in *The Encyclopedia of Moon Mysteries* Secrets Conspiracy Theories Anomalies Extraterrestrials and More For example did you know that Aristotle and Plato wrote about a time when there was no Moon They even gave a name of an ancient tribe of people that lived during that moonless period several of the NASA astronauts reported seeing UFOs while traveling to the Moon the Moon might be hollow Apollo 10 astronauts heard strange space music when traveling on the far side of the Moon strange and unexplained lights have been seen on the Moon for centuries there are said to be ruins of structures on the Moon there is an ancient tale

that suggests that the first human was created on the Moon that radio signals have been detected coming from the Moon that famed astronomer Sir John Herschel saw unidentified lights above the Moon during an eclipse that ancient Bolivian symbols tell us that the Moon came into Earth's orbit around 12 000 years ago a psychic was used by the government to relay information about the Moon The book is separated into A to Z sections for easy reference and reading **PALE SKIN, GIANTS, AND THE GREAT TRANSITION** MILTON E. BRENER, 2013-01-17 This book Milton Brener's third on the subject of UFOs and extraterrestrials is a giant leap He delves into an analysis of much current scientific evidence that appears to add credence to claims of early hybridization of the human race It is an entirely new and novel approach but a very readable and one It is a challenge to readers to think constructively of the new and novel It revolves around the coalescence beginning about fifty thousand years ago of several significant and scientifically proven occurrences One is the beginning of the pale skin tone of Europeans Brener systematically dismantles the accepted scientific explanation for it and drives home the fact that the only other living creatures with similar skin tone are the extraterrestrials often known to many witnesses of high credibility as Nordics Unlike other ETs these Nordics look like us though some are said to be remarkably tall and also unlike others leave the contactees with very positive feelings Another major occurrence the great transition was the relatively sudden appearance of modern behavior including artistic genius timekeeping and creation of musical instruments The book is truly a tour de force Wagner and Schopenhauer Milton E. Brener, 2014-04-04 Most who write about Wagner's operas claim that the works of Arthur Schopenhauer had a huge effect on them The influence has Brener believes been vastly overstated The most detailed exposition of that alleged influence is by Bryan Magee In his Tristan Chord Magee details the bases for what are often by others unsupported conclusions Familiar with both the important writings of Schopenhauer and the works of Wagner Brener is among the few capable of a thorough analysis and factual response to Magee's claims His conclusions backed with primary sources stands almost alone in opposition to accepted dogma Out of Time Steve Aspin, 2023-08-24 In Out of Time The Intergenerational Abduction Program Explored author Steve Aspin has written a crossover work about the enduring worldwide reports of alien abduction The book is intended for both those familiar with the historic published case material and the curious reader unfamiliar with the decades of serious academic research on this superficially improbable phenomenon The author details his lifelong personal experience and the relationships he built with leading researchers during 15 years of investigating this phenomenon He has at all times attempted to approach the subject with critical thoroughness and intellectual rigour From stumbling on a cattle mutilation in Ireland in 1970 to witnessing a UFO after a period of missing time at age 16 in 1972 to a confrontational experience in a Sardinia hotel in 2006 the author relates a lifetime of anomalous experiences But this is only the starting point of the journey the reader of Out of Time will make Steve then details several years of investigation into the subject and how what he has learned has shaped his thoughts on what is happening to perhaps millions of people worldwide He had the good fortune to meet with several leading

researchers in the field including Budd Hopkins and Dr David Jacobs and read hundreds of published works on the subject of UFOs and abductions He has attempted to bring hard forensic evidence to the discussion and to follow that evidence where it may lead paying particular attention to the clearly intergenerational aspect of the global abduction program which he demonstrates with corroborating evidence almost certainly dates from the 1890s His conclusions will be of interest to anyone attentive to this field of study Whether inevitably proved right or wrong they stem from a conscious effort to bring objectivity and honesty to the analysis of this widely reported phenomenon Although successfully normalised in popular culture to become background noise or a minor comic footnote in otherwise busy lives this subject has real and serious implications for both the individual experiencer and human society collectively
