The Future of Unions and Worker Representation Anthony Forsyth,2022-01-13 This book charts the path to revitalisation for trade unions in Australia the USA the UK and Italy It examines the examples of innovation and digital campaigning that are enabling unions to build new forms of worker power and overcome decades of declining membership wrought by neoliberalism globalisation and hostility from employers and the state The study evaluates the responses of unions in each country to falling membership levels since the 1980s It considers the US organising model and its adoption in Australia and the UK comparing this with the strategies of Italian unions which have been more deliberately focused on precarious and migrant workers The increasing reliance of US unions on community alliances as seen in the Fight for 15 and similar campaigns is scrutinised along with new union prototypes like Hospo Voice in Australia the Independent Workers Union of Great Britain and SI Cobas in Italy The book includes an in depth analysis of union responses to the gig economy in the four countries and the emergence of self organised worker collectives to combat this exploitative business model The vital role played by unions in defending the interests of workers during the COVID 19 pandemic is also examined As well as highlighting the most successful union initiatives to meet the challenges of the past 30
