Wonders in the Sky Jacques Vallee, Chris Aubeck, 2010-10-28 One of the most ambitious works of paranormal investigation of our time here is an unprecedented compendium of pre twentieth century UFO accounts written with rigor and color by two of today s leading investigators of unexplained phenomena In the past century individuals newspapers and military agencies have recorded thousands of UFO incidents giving rise to much speculation about flying saucers visitors from other planets and alien abductions Yet the extraterrestrial phenomenon did not begin in the present era Far from it The authors of Wonders in the Sky reveal a thread of vividly rendered and sometimes strikingly similar reports of mysterious aerial phenomena from antiquity through the modern age These accounts often share definite physical features such as the heat felt and described by witnesses that have not changed much over the centuries Indeed such similarities between ancient and modern sightings are the rule rather than the exception In Wonders in the Sky respected researchers Jacques Vallee and Chris Aubeck examine more than 500 selected reports of sightings from biblical age antiquity through the year 1879 the point at which the Industrial Revolution deeply changed the nature of human society and the skies began to open to airplanes dirigibles rockets and other opportunities for misinterpretation represented by military prototypes Using vivid and engaging case studies and more than seventy five illustrations they reveal that unidentified flying objects have had a major impact not only on popular culture but on our history on our religion and on the models of the world humanity has formed from deepest antiquity Sure to become a classic among UFO enthusiasts and other followers of unexplained phenomena Wonders in the Sky is the most ambitious broad reaching and intelligent analysis ever written on premodern aerial mysteries **Wonders**

Out

of Time Steve Aspin, 2023-08-24 In Out of Time The Intergenerational Abduction Program Explored author Steve Aspin has written a crossover work about the enduring worldwide reports of alien abduction The book is intended for both those familiar with the historic published case material and the curious reader unfamiliar with the decades of serious academic research on this superficially improbable phenomenon The author details his lifelong personal experience and the relationships he built with leading researchers during 15 years of investigating this phenomenon He has at all times attempted to approach the subject with critical thoroughness and intellectual rigour From stumbling on a cattle mutilation in Ireland in 1970 to witnessing a UFO after a period of missing time at age 16 in 1972 to a confrontational experience in a Sardinia hotel in 2006 the author relates a lifetime of anomalous experiences But this is only the starting point of the journey the reader of Out of Time will make Steve then details several years of investigation into the subject and how what he has learned has shaped his thoughts on what is happening to perhaps millions of people worldwide He had the good fortune to meet with several leading researchers in the field including Budd Hopkins and Dr David Jacobs and read hundreds of published works on the subject of UFOs and abductions He has attempted to bring hard forensic evidence to the discussion and to follow that evidence where it may lead paying particular attention to the clearly intergenerational aspect of the global abduction program which he demonstrates with corroborating evidence almost certainly dates from the 1890s His conclusions will be of interest to anyone attentive to this field of study Whether inevitably proved right or wrong they stem from a conscious effort to bring objectivity and honesty to the analysis of this widely reported phenomenon Although successfully normalised in popular culture to become background noise or a minor comic footnote in otherwise busy lives this subject has real and serious implications for both the individual experiencer and human society collectively
