Wordgloss A Cultural Lexicon:

Wordgloss Jim O'Donnell, 2005 This lively and engaging reference book explores the meaning and etymology of common Latin and Greek phrases in law politics science technology literature philosophy and the arts **Requiem for the Republic** James M Bourke, 2021-07-30 Requiem for the Republic is a collection of socio political essays on the state of the Irish nation Unfortunately the current New Ireland is but a pale shadow of the republic that was established a hundred years ago in 1921 following the War of Independence The thesis of these critical essays is that Ireland is no longer a true republic It is the author's contention that it has become a servile secularist state ruled by a political elite with an inflated sense of self importance and a lack of empathy for the common people The essays look at different aspects of the transformation of a Christian nation into a secularist state The main focus is on the clash of cultures between the toxic ideology of the New Ireland and the high ideals set by the founding fathers of the republic Of course the views expressed by Bourke are his personal opinions They are contestable and will be contested Many liberal writers choose to ignore the disintegration of Christian Ireland and its traditional values However Bourke will not be silent He states his case with searing honesty knowing that to remain silent would not serve the public interest **Word Gloss** James D. O'Donnell, 1990 **Theoretical and Methodological Approaches to the Sociolinguistic Integration of Migration** Florentino Paredes García, María Sancho Pascual, 2020-12-29 Migration has become a structural part of the globalized society in which we live and as such it is essential to determine the causes and effects it produces in the involved social groups Sociolinguistics has a very important role to play in this respect insofar as its object of study focuses precisely on the analysis of the interrelationships between the linguistic and the social dimensions This volume presents a series of proposals that involve theoretical approaches models and applications related to the process of sociolinguistic integration in contact situations arising from migration The volume includes studies of general interest which present models and theoretical foundations for the analysis of this process of integration as well as others which focus on other more specific aspects such as how migration influences the construction of individual identity emotional and affective factors in the preservation of the heritage language and the processes of interlingual convergence that take place in situations of migratory contact This volume also contains the didactic dimension applied to the immigrant population with proposals for teaching with proven effectiveness **An Introduction to Lexicography** Ram Adhar Singh, 1982 The Oxford Handbook of African Archaeology Peter Mitchell, Paul Lane, 2013-07-04 This Handbook provides a comprehensive synthesis of African archaeology covering the entirety of the continent's past from the beginnings of human evolution to the archaeological legacy of European colonialism It includes a mixture of key methodological and theoretical issues and debates and situates the subject's contemporary practice *Liddell and Scott* Christopher Stray, Michael J. Clarke, Joshua Timothy Katz, 2019 Everyone who studies or researches ancient Greek uses the Greek English Lexicon of Liddell and Scott this volume brings together essays on all aspects of the history constitution and

problematics of this extraordinary work in order to better understand its significance for both Greek studies and the theory and practice of lexicography

The Contemporary Theory of Metaphor Ning Yu, 1998-07-15 This comparative study of Chinese and English metaphor contributes to the search for metaphoric universals by placing the contemporary theory of metaphor in a broad cross linguistic and cross cultural perspective The author explores to what degree abstract reasoning is metaphorical and which conceptual metaphors are culture specific wide spread or universal in a cognitive and cultural context The empirical studies presented reinforce the view that metaphor is the main mechanism through which abstract concepts are comprehended and abstract reasoning is performed They also support from the perspective of Chinese the candidacy of some conceptual metaphors for metaphorical universals These include for instance the ANGER IS HEAT metaphor the HAPPY IS UP metaphor emotions the TIME AS SPACE metaphor and the Event Structure Metaphor It seems that these conceptual metaphors are grounded in some basic human experiences that may be universal to all human beings

The Child and Other Cultural Inventions Frank S. Kessel, Alexander W. Siegel, 1983 Explores the view that the child and child psychology itself are cultural inventions This fourth volume in the Houston Symposium series features the perceptions of an interdisciplinary group of senior scholars in development psychology cognitive psychology history sociology philosophy and social policy

Occupied Words Hannah Pollin-Galay, 2024-09-03 How Yiddish changed to express and memorialize the trauma of the Holocaust The Holocaust radically altered the way many East European Jews spoke Yiddish Finding prewar language incapable of describing the imprisonment death and dehumanization of the Shoah prisoners added or reinvented thousands of Yiddish words and phrases to describe their new reality These crass witty and sometimes beautiful Yiddish words Khurbn Yiddish or Yiddish of the Holocaust puzzled and intrigued the East European Jews who were experiencing the metamorphosis of their own tongue in real time Sensing that Khurbn Yiddish words harbored profound truths about what Jews endured during the Holocaust some Yiddish speakers threw themselves into compiling dictionaries and glossaries to document and analyze these new words Others incorporated Khurbn Yiddish into their poetry and prose In *Occupied Words* Hannah Pollin Galay explores Khurbn Yiddish as a form of Holocaust memory and as a testament to the sensation of speech under genocidal conditions *Occupied Words* investigates Khurbn Yiddish through the lenses of cultural history philology and literary interpretation Analyzing fragments of language consciousness left behind from the camps and ghettos alongside the postwar journeys of three intellectuals Nachman Blumental Israel Kaplan and Elye Spivak Pollin Galay seeks to understand why people chose Yiddish lexicography as a means of witnessing the Holocaust She then turns to the Khurbn Yiddish words themselves focusing on terms related to theft the German Yiddish encounter and the erotic female body Here the author unearths new perspectives on how Jews experienced daily life under Nazi occupation while raising questions about language and victimhood Lastly the book explores how writers turned ghetto and camp slang into art highlighting the poetry and fiction of K Tzetnik Yehiel Di Nur and Chava Rosenfarb Ultimately *Occupied Words* speaks to

broader debates about cultural genocide asking how we might rethink the concept of genocide through the framework of language
