What Color Is The Sacred:

What Color Is the Sacred? Michael Taussig, 2024-05-31 Over the past thirty years visionary anthropologist Michael Taussig has crafted a highly distinctive body of work Playful enthralling and whip smart his writing makes ingenious connections between ideas thinkers and things An extended meditation on the mysteries of color and the fascination they provoke *What Color Is the Sacred* is the next step on Taussig's remarkable intellectual path Following his interest in magic and surrealism his earlier work on mimesis and his recent discussion of heat gold and cocaine in *My Cocaine Museum* this book uses color to explore further dimensions of what Taussig calls the bodily unconscious in an age of global warming Drawing on classic ethnography as well as the work of Benjamin Burroughs and Proust he takes up the notion that color invites the viewer into images and into the world Yet as Taussig makes clear color has a history a manifestly colonial history rooted in the West's discomfort with color especially bright color and its associations with the so called primitive He begins by noting Goethe's belief that Europeans are physically averse to vivid color while the uncivilized revel in it which prompts Taussig to reconsider colonialism as a tension between chromophobes and chromophiliacs And he ends with the strange story of coal which he argues displaced colonial color by giving birth to synthetic colors organic chemistry and IG Farben the giant chemical corporation behind the Third Reich Nietzsche once wrote So far all that has given colour to existence still lacks a history With *What Color Is the Sacred* Taussig has taken up that challenge with all the radiant intelligence and inspiration we've come to expect from him

Colors for Your Every Mood Leatrice Eiseman, 2000 Offers advice on choosing color combinations for decorating one's home discusses the psychology of color and answers decorating questions

The Materiality of Color Andrea Feiser, Maureen Daly Goggin, Beth Fowkes Tobin, 2012 The purpose of this essay collection is to recover color's complex and sometimes morally troubling past By emphasising color's materiality and how it was produced exchanged and used contributors draw attention to the disjuncture between the beauty of color and the blood sweat and tears that went into its production circulation and application as well as to the complicated and varied social meanings attached to color within specific historical and social contexts

Mirages and Mad Beliefs Christopher Prendergast, 2013-07-21 Marcel Proust was long the object of a cult in which the main point of reading his great novel *In Search of Lost Time* was to find with its narrator a redemptive epiphany in a pastry and a cup of lime blossom tea We now live in less confident times in ways that place great strain on the assumptions and beliefs that made those earlier readings possible This has led to a new manner of reading Proust against the grain In *Mirages and Mad Beliefs* Christopher Prendergast argues the case differently with the grain on the basis that Proust himself was prey to self doubt and found numerous if indirect ways of letting us know Prendergast traces in detail the locations and forms of a quietly nondogmatic yet insistently skeptical voice that questions the redemptive aesthetic the novel is so often taken to celebrate bringing the reader to wonder whether that aesthetic is but another instance of the mirage or the mad belief that in other guises figures

prominently in *In Search of Lost Time* In tracing the modalities of this self pressuring voice Prendergast ranges far and wide across a multiplicity of ideas themes sources and stylistic registers in Proust's literary thought and writing practice attentive at every point to inflections of detail in a sustained account of Proust the skeptic for the contemporary reader *Styles of Extinction: Cormac McCarthy's The Road* Julian Murphet, Mark Steven, 2012-06-28 *Styles of Extinction* Cormac McCarthy's *The Road* brings together several leading literary scholars one major philosopher as well as a handful of emerging critical voices all of whom deploy their own specialist methods in order to think through this bestselling Zeitgeist defining event of contemporary literature There are two dominant modes of analysis gathered here the first performed by Julian Murphet Paul Sheehan and Mark Steven is to locate the novel within its political spiritual and economic climates the second whose exponents include Paul Patton Sean Pryor Chris Danta and Grace Hellyer deals with the formal dimensions of McCarthy's characteristically brilliant prose in relation to its sparse narrative By coupling historically sensitive analysis with incisive formal criticism the contributors not only account for the matchless form of this exemplary novel they also suggest that *The Road* has something unique to disclose about the world we inhabit *Seeing Silence* Mark C. Taylor, 2022-02-18 Finding silence amidst restlessness is what makes creative life possible and death comprehensible But how do we find more importantly how do we understand silence while immersed in the chattering of the digital age Have we forgotten how to listen Are we less prepared than ever for the ultimate silence that awaits us all Mark C Taylor's new book is a philosophy of silence for our nervous buzzing present a timely work for a world where noise is a means of distraction domination and control Here Taylor asks the reader to pause long enough to hear what is not said and to attend to what remains unsayable But in his account our way to hearing silence is to see it Taylor explores variations of silence by considering the work of leading modern and postmodern visual artists from Barnett Newman and Ad Reinhardt to James Turrell and Anish Kapoor Drawing also on the insights of philosophers theologians writers and composers he weaves a rich narrative modeled on the Stations of the Cross We come from and return to silence in between silence is the gap hesitation interval that allows thoughts to form and words to emerge he writes His chapter titles suggest our positions toward silence or rather our prepositions Without Before From Beyond Against Within Around Between Toward With In Recasting Hegel's phenomenology of spirit and Kierkegaard's stages on life's way Taylor translates the traditional Via Dolorosa into a Nietzschean Via Jubilosa that affirms silence in the midst of noise light in the midst of darkness *Religious Affects* Donovan O. Schaefer, 2015-11-13 In *Religious Affects* Donovan O Schaefer challenges the notion that religion is inextricably linked to language and belief proposing instead that it is primarily driven by affects Drawing on affect theory evolutionary biology and poststructuralist theory Schaefer builds on the recent materialist shift in religious studies to relocate religious practices in the affective realm an insight that helps us better understand how religion is lived in conjunction with systems of power To demonstrate religion's animality and how it works affectively Schaefer turns to a series of case studies including the documentary *Jesus Camp* and

contemporary American Islamophobia Placing affect theory in conversation with post Darwinian evolutionary theory Schaefer explores the extent to which nonhuman animals have the capacity to practice religion linking human forms of religion and power through a new analysis of the chimpanzee waterfall dance as observed by Jane Goodall In this compelling case for the use of affect theory in religious studies Schaefer provides a new model for mapping relations between religion politics species globalization secularism race and ethics

The Harlequin Eaters Janet Beizer, 2024-04-02 How representations of the preparation sale and consumption of leftovers in nineteenth century urban France link socioeconomic and aesthetic history The concept of the harlequin refers to the practice of reassembling dinner scraps cleared from the plates of the wealthy to sell repackaged to the poor in nineteenth century Paris In *The Harlequin Eaters* Janet Beizer investigates how the alimentary harlequin evolved in the nineteenth and early twentieth centuries from the earlier similarly patchworked Commedia dell'arte Harlequin character and can be used to rethink the entangled place of class race and food in the longer history of modernism By superimposing figurations of the edible harlequin taken from a broad array of popular and canonical novels newspaper articles postcard photographs and lithographs Beizer shows that what is at stake in nineteenth century discourses surrounding this mixed meal are representations not only of food but also of the marginalized people the harlequin eaters who consume it at this time when a global society is emerging She reveals the imbrication of kitchen narratives and intellectual aesthetic practices of thought and art presenting a way to integrate socioeconomic history with the history of literature and the visual arts *The Harlequin Eaters* also offers fascinating background to today's problems of food inequity as it unpacks stories of the for-profit recycling of excess food across class and race divisions

Where the North Sea Touches Alabama Allen C. Shelton, 2013-10-25 On a warm summer's night in Athens Georgia Patrik Keim stuck a pistol into his mouth and pulled the trigger Keim was an artist and the room in which he died was an assemblage of the tools of his particular trade the floor and table were covered with images while a pair of large scissors glue electrical tape and some dentures shared space with a pile of old medical journals butcher knives and various other small objects Keim had cleared a space on the floor and the wall directly behind him was bare His body completed the tableau Art and artists often end in tragedy and obscurity but Keim's story doesn't end with his death A few years later 180 miles away from Keim's grave a bulldozer operator uncovered a pine coffin in an old beaver swamp down the road from Allen C Shelton's farm He quickly reburied it but Shelton a friend of Keim's who had a suitcase of his unfinished projects became convinced that his friend wasn't dead and fixed in the ground but moving between this world and the next in a traveling coffin in search of his incomplete work In *Where the North Sea Touches Alabama* Shelton ushers us into realms of fantasy revelation and reflection paced with a slow unfurling of magical correspondences Though he is trained as a sociologist this is a genre-crossing work of literature a two-sided ethnography one from the world of the living and the other from the world of the dead What follows isn't a ghost story but an exciting and extraordinary kind of narrative The psycho-sociological landscape that Shelton constructs

for his reader is as evocative of Kafka Bataille and Benjamin as it is of Weber Foucault and Marx Where the North Sea Touches Alabama is a work of sociological fictocriticism that explores not only the author's relationship to the artist but his physical historical and social relationship to northeastern Alabama in rare style **Black Panther** Scott Bukatman, 2022-07-19 Black Panther was the first Black superhero in mainstream American comics Black Panther was a cultural phenomenon that broke box office records Yet it wasn't just a movie led by and starring Black artists It grappled with ideas and conflicts central to Black life in America and helped redress the racial dynamics of the Hollywood blockbuster Scott Bukatman one of the foremost scholars of superheroes and cinematic spectacle brings his impeccable pedigree to this lively and accessible study finding in the utopianism of Black Panther a way of re-envisioning what a superhero movie can and should be while centering the Black creators performers and issues behind it He considers the superheroic Black body the Pan African fantasy feminism and Afrofuturism of Wakanda the African American relationship to Africa the political influence of director Ryan Coogler's earlier movies and the entwined performances of Chadwick Boseman's T Challa and Michael B Jordan's Killmonger Bukatman argues that Black Panther is escapism of the best kind offering a fantasy of liberation and social justice while demonstrating the power of popular culture to articulate ideals and raise vital questions Speculative Relations Joseph M.
