What Excellent Community Colleges Do Preparing All Students For Success:

What Excellent Community Colleges Do Joshua S. Wyner, 2019-01-02 In *What Excellent Community Colleges Do* Joshua S. Wyner draws on the insights and evidence gained in administering the inaugural Aspen Prize for Community College Excellence. This book identifies four domains of excellence: degree completion, equity, student learning, and labor market success, and describes in rich detail the policies and practices that have allowed some community colleges to succeed in these domains. By starting with a holistic definition of excellence, measuring success against that definition, and then identifying practices and policies that align with high levels of student success, the author seeks to contribute to the growing body of knowledge about improving student success in community colleges. *Enhancing Performance* Sandra J. Balkema, Roberta C. Teahen, 2021-06-01 *Enhancing Performance: A Best Practices Guide for Innovations in Community Colleges* is a collection of essays from community college leaders across the country addressing challenges facing today's community colleges and providing practical, successful solutions their institutions have implemented. Some of the essays address foundational issues, including the role of innovation, strategic enrollment management, and campus safety strategies on the future of community colleges. In the essays, leaders suggest ways campuses can create opportunities for intentional student-faculty connections, provide revitalized advising services, and support the needs of marginalized student populations. The essays also address the role of community colleges in promoting civic engagement, responding to community crises, and addressing critical need. Each essay challenges us to delve deeper into the issues and find workable solutions. The essay authors are community college leaders who are alumni, faculty, or advisory board members in the doctoral program in Community College Leadership (DCCL) Program at Ferris State University, Michigan. **Complete the Agenda in Higher Education** Lee Ann Nutt, Latoya Hardman, 2019-01-12 *Complete the Agenda in Higher Education: Challenge Beliefs about Student Success* is a bold call to action to do more than just improve college completion rates. This book is for community college board members, administrators, faculty, and staff who also want to: 1. foster beliefs that will enable students to finish what they start; 2. empower students to overcome daily challenges and real adversity; and 3. transform human potential into achievement for a lifetime. Courageous educators, foundations, associations, and researchers made community colleges better than we were a decade ago. Completion rates have improved somewhat as a result, but too many students still do not finish because the Completion Agenda is incomplete. This book describes compelling reasons why a shift from a completion-only mindset to the Beliefs Agenda, completion with GRIT, is critical for the future of America. It provides practical implementation methods, offers engaging teaching tactics, and proposes sensible strategies. *Enhancing Adult Motivation to Learn* Raymond J. Wlodkowski, Margery B. Ginsberg, 2017-08-17 The classic interdisciplinary reference on adult education, updated for today's learning environment, *Enhancing Adult Motivation to Learn* provides adult educators with the information and strategies they need to guide non-traditional students toward positive educational outcomes. Providing a clear framework

Momentum Daniel Seymour, 2015-12-07 An era of accountability has swept over the higher education landscape Everyone it seems legislatures think tanks newspapers magazines books and bloggers wants to hold colleges and universities accountable They are attaching strings to budgets producing reports that read like exposés developing clever systems to rank and sort us and writing books and articles that describe the end of college as we know it According to them we need to be reformed reimaged and rebooted Momentum changes the conversation from how others are holding higher education accountable to why colleges and universities need to embrace the need to demonstrate their own responsibility The responsibility paradigm that emerges fundamentally shifts the dialogue from fixing to preventing from reacting to creating from surviving to thriving To implement this new paradigm the dynamics of virtuous cycles are introduced and described These upward spirals build on their own successes and result in growing confidence a sense of vitality and resilience The future of these institutions isn't the result of outside pressure or reformers The future is something that can and should be created by those who take responsibility for it
