Carol A. Kochhar-Bryant, 2007 Open this incredibly rich new series and discover practical information and essential strategies to begin a successful teaching career Choose which important topic you want to cover in greater detail and Allyn and Bacon will package it with any of our textbooks at a discount **Educating Individuals with Disabilities** Elena L. Grigorenko, 2008-02-22 Print CourseSmart *The SAGE Encyclopedia of Online Education* Steven L. Danver, 2016-04-15 Online education both by for profit institutions and within traditional universities has seen recent tremendous growth and appeal but online education has many aspects that are not well understood The SAGE Encyclopedia of Online Education provides a thorough and engaging reference on all aspects of this field from the theoretical dimensions of teaching online to the technological aspects of implementing online courses with a central focus on the effective education of students Key topics explored through over 350 entries include Technology used in the online classroom Institutions that have contributed to the growth of online education Pedagogical basis and strategies of online education Effectiveness and assessment Different types of online education and best practices The changing role of online education in the global education system

International Encyclopedia of Education , 2009-04-17 The field of education has experienced extraordinary technological

societal and institutional change in recent years making it one of the most fascinating yet complex fields of study in social science Unequaled in its combination of authoritative scholarship and comprehensive coverage International Encyclopedia of Education Third Edition succeeds two highly successful previous editions 1985 1994 in aiming to encapsulate research in this vibrant field for the twenty first century reader Under development for five years this work encompasses over 1 000 articles across 24 individual areas of coverage and is expected to become the dominant resource in the field Education is a multidisciplinary and international field drawing on a wide range of social sciences and humanities disciplines and this new edition comprehensively matches this diversity The diverse background and multidisciplinary subject coverage of the Editorial Board ensure a balanced and objective academic framework with 1 500 contributors representing over 100 countries capturing a complete portrait of this evolving field A totally new work revamped with a wholly new editorial board structure and brand new list of meta sections and articles Developed by an international panel of editors and authors drawn from senior academia Web enhanced with supplementary multimedia audio and video files hotlinked to relevant references and sources for further study Incorporates ca 1 350 articles with timely coverage of such topics as technology and learning demography and social change globalization and adult learning to name a few Offers two content delivery options print and online the latter of which provides anytime anywhere access for multiple users and superior search functionality via ScienceDirect as well as multimedia content including audio and video files

Transforming Special Education

Practices Nicholas D. Young, Peter Bittel, 2012-11-02 Superintendents central office administrators principals school board members and students in the field of education will find this book to be useful in guiding their own professional development and practice The authors cover a variety of useful topics in special education ranging from finances how to systematically monitor the assignment of paraprofessionals and transportation to legal considerations and methods of promoting parent engagement Co editors Bittel and Young invited seasoned educators and professionals to share their expertise in a wide range of important subjects that collectively promote an understanding of how to transform special education programs and service delivery in public school settings Chapter topics were intentionally selected to address the common special education program challenges facing school superintendents and the focus throughout this book was on providing practical suggestions to improve actual practice As such current and aspiring educational leaders and policy makers who are interested in learning more about how to successfully tackle some of the more complex challenges in special education will find this book to be an invaluable resource

Special Education Law Peter S. Latham, Patricia H. Latham, Myrna Mandlawitz, 2008 Clear well organized presentation of IDEA and other pertinent federal laws together with well organized discussion of relevant cases help educators understand and apply their knowledge in concrete situations The emphasis of this practical book is on increasing understanding at a conceptual level rather than rote memorization of detailed provisions of the IDEA and other laws By understanding the law educators will be better equipped to work with future amendments of IDEA and with new laws

that may be enacted by Congress They will also have an increased ability to apply statutory provisions to specific situations Part I Constitutional Framework provides important background in understanding the authority that Congress has to enact laws that impact on education in the United States and the authority that the courts have to interpret laws Includes discussion of the judicial system the key provisions of the United States Constitution due process equal protection the statutes of certain regulations and a brief overview and comparison of the Individuals with Disabilities Education Act IDEA the Rehabilitation Act RA and the Americans with Disabilities Act ADA Part II IDEA covers background basic language and coverage duty to evaluate FAPE IEP placement related services inclusions least restrictive environment private school discipline mediation due process and court proceedings Sample forms are included to supplement discussion with concrete examples to aid understanding Part III RA and ADA covers RA ADA basics such as who is an individual with a disability what entities are covered enforcement provisions and application to schools universities and employers Part IV Other Legal Issues covers No Child Left Behind FERPA tort liability and high stakes testing issues At the end of each part there is a very basic question and answer section to assist the student in focusing on major points in each part

Fundamentals of Special Education Margaret G. Werts, Richard Culatta, James R. Tompkins, 2007 Fundamentals of Special Education What Every Teacher Needs to Know gathers into one source the critical information needed to understand students with disabilities Written to be concise yet complete it is an essential resource for educators because it provides the basic parameters of each disability area and defines the issues that impact current interventions and practices This new edition addresses the latest laws in special education such as the reauthorization of IDEA and NCLB includes a new chapter on autism spectrum disorders and contains additional information on collaboration with families and other service professionals *NCLB and IDEA '04* John W. Norlin, 2005

The Legal Foundations of Special Education James E. Ysseldyke, Robert Algozzine, 2006-03-21 This resource reviews the most influential laws affecting special education services and includes assessments to help readers evaluate their understanding of current legal practices

The Inclusive Classroom Margo A. Mastropieri, Thomas E. Scruggs, 2010 This text offers a wealth of practical and proven strategies for successfully including students with disabilities in general education classrooms The text provides targeted strategies for the subject and skill areas as well as special needs of individual students with a strong focus on instructional strategies applied to specific student need areas An overall theme of effective differentiated instruction is infused throughout the text relating to those practices that are most closely aligned with academic success The text is unique in its three part coverage of 1 the fundamentals of teaching students with special needs 2 effective general teaching practices and 3 inclusive practices in specific subject areas With a strong focus on instructional strategies and how they are applied to specific student need areas the text goes further by featuring more specific strategies than any other text and extensive information about the most effective strategies available and when and how to use them This strong focus instructs pre service teachers and other education personnel on

how they can implement in the classroom specific strategies to address a very wide range of grade levels skill levels academic content areas and extensive and very specific information on strategies teachers can use in the areas of most concern to them e g behavior management handling student confrontations promoting literacy memory for school content motivation to learn maintaining student attention adapting assessment and improving test scores and specific strategies for adapting specific lessons in math science social studies and career and technical education Specifically written for pre service or in service special education teachers who will work with general education teachers in K 12 classrooms the text is also relevant for school psychologists counselors support staff and other school personnel interested in helping all students succeed in the classroom
