Macroeconomics Paul De Grauwe, Yuemei Ji, 2019-10-25 Modern macroeconomics has been based on the paradigm of the rational individual capable of understanding the complexity of the world This has created a very shallow theory of the business cycle in which nothing happens in the macroeconomy unless shocks occur from outside Behavioural Macroeconomics Theory and Policy uses a different paradigm It assumes that individual agents experience cognitive limitations preventing them from having rational expectations Instead these individuals use simple rules of behaviour Behavioural Macroeconomics introduces rationality by allowing individuals to learn from their mistakes and to switch to the rules that perform better It introduces the idea of endogenously generated animal spirits that drive the business cycle and are in turn influenced by it and applies this model to shed new light on a number of important issues It analyses the role of fiscal policy in stabilizing the economy while maintaining debt sustainability expands the model to include a banking sector and show how banks amplify the booms and busts and explains how animal spirits help to synchronize the business cycles across countries The model set out in Behavioural Macroeconomics leads to very different policy implications from the mainstream macroeconomic model It shows how policymakers have a responsibility to stabilize an otherwise unstable system

Marketing Public Health: Strategies to Promote Social Change Michael Siegel, Lynne Doner Lotenberg, 2006-12-21 Marketing Public Health Strategies to Promote Social Change was designed to help public health practitioners understand basic marketing principles and strategically apply these principles in planning implementing and evaluating public health initiatives The first edition has been widely used by public health practitioners at all levels of government and in the private sector as a tool to help run more effective campaigns to change individual behavior improve social and economic conditions advance social policies and compete successfully for public attention and resources This thoroughly revised second edition includes new case studies written by respected and well known guest contributors from the front lines and will help illustrate

the principles and strategies in a way that makes it immediately apparent to readers how the material can be used in modern real life public health campaigns Current themes in the social marketing world such as the concept of branding have also been incorporated into the book in both its narrative and its case studies and examples

A Deconstruction of Michel Foucault's 1979 Discourse of Neo-Liberalism for the 21st Century Daurius Figueira ,2021-09-19 From 10 January 1979 to 4 April 1979 Michel Foucault delivered his annual public lecture at the College De France Paris titled The Birth of Biopolitics which did not deal with Biopolitics and its Birth Foucault in this 1979 public lecture delivered a deconstruction of the North Atlantic discourse of liberalism neo liberalism Foucault s deconstruction presented the key basic strategic concepts of the discourse and its discursive agents thereby revealing the worldview of the discourse its strategic agenda and its concepts of governmentality to realise its hegemony over the social order This work is a deconstruction of Foucault s discourse of liberalism neo liberalism towards articulating the order of power of North Atlantic neo liberalism in the 21st Century since the financial meltdown of 2008 and articulating the order of power of the colonial neo colonial order of power of the English speaking Caribbean in the 21st Century The salient reality that has emerged from this exercise is the replication of the colonial neo colonial order of power in the North Atlantic under the hegemony of neo liberal discourse especially since the financial meltdown of 2008 to 2021 A North Atlantic neo colonial order of power on steroids

Pattern Recognition for Reliability Assessment of Water Distribution Networks N. Trifunovic,2012-02-13 This study investigates the patterns that describe reliability of water distribution networks focusing to the node connectivity energy balance and economics of construction operation and maintenance A number of measures to evaluate the network resilience has been developed and assessed to arrive at more accurate diagnostics of regular and irregular demand scenarios These measures have been proposed as a part of the methodology for snap shot assessment of network reliability based on its configuration and hydraulic performance Practical outcome of the research is the decision support tool for reliability based design of water distribution networks This computer package named NEDRA Network Design and Reliability Assessment

consists of the modules for network generation filtering initialisation optimisation diagnostics and cost calculation which can be used for sensitivity analyses of single network layout or assessments of multiple layouts The study concludes that none of the analysed aspects develops clear singular patterns Nevertheless the proposed network buffer index NBI and the hydraulic reliability diagram HRD as visual representation of the network resilience give sufficient snap shot pointing the composition of the index value and displaying possible weak points in the network that can be hidden behind the averaged values of various reliability measures
