Islands, Law and Context Malcolm D. Evans, Reece Lewis, 2023-07-01 This ground breaking book challenges legal orthodoxy presenting an original approach to the treatment of islands in international law It offers a new perspective on how to define islands in international law questioning how they differ from other maritime features It focuses on the contextual factors that bear upon the legal treatment of islands recognising that in practice islands have varied and unequal impacts and arguing that greater focus on context is needed to understand legal outcomes particularly those concerning maritime boundary delimitation

Great Powers, Grand Strategies Anders Corr, 2018-01-15 Great Powers Grand Strategies offers the analysis of a dozen experts on the big picture approaches to the South China Sea dispute By exploring the international dimensions of this regional hotspot Gordon Chang Bernard Cole James Fanell Bill Hayton and others examine how the military diplomatic and economic strategies of the major global actors have both contributed to solutions and exacerbated the potential for conflict As editor of this volume Anders Corr seeks to juxtapose the grand strategies of the great powers to determine the likely outcomes of the South China Sea dispute as well as evaluate the ways to possibly defuse tensions in the region

Worthy and Unworthy Devan Hawkins, 2024-09-27 What geopolitical events are worthy of media attention In an ideal world the answer to this question would be based on the merit of the event Unfortunately this is not always the case Media attention throughout the Western world too often reflects and reinforces Western government's geopolitical orientations Building on Edward Herman Noam Chomsky and other scholars who have examined biased media coverage Worthy and Unworthy presents case studies depicting how media coverage of events in foreign countries differs depending on whether a country is a geopolitical enemy or an ally of the United States The book presents case studies comparing coverage in the New York Times of comparable geopolitical events that have occurred in geopolitical allies of the United States and non allied countries As the systematic analysis of both the amount of coverage these events received and the nature of the coverage shows the Times coverage creates worthy and unworthy events with

hyperfocus being given to geopolitical events in non allied countries and less focus given to the events in friendly countries While the book focuses on the New York Times an analysis of coverage from other media outlets shows that the Times is not alone in this tendency Our view of geopolitical events is shaped by the media we consume If you re concerned about the Western media s coverage of geopolitical events and whether it encourages some of the worst and most harmful aspects of US foreign policy understanding the biases in media coverage is essential With an increased understanding of these biases we can help reduce them

The Indo-Pacific Axis Satish Chandra,Baladas Ghoshal,2018-04-17 The term Indo Pacific is being used increasingly in the global strategic geo political discourse in recent years The rise of China as an economic giant and a rising military power has led to the consequent shift of international politics and relations to Asia as the fulcrum It has turned the whole region of Indo Pacific as one security complex Countries that are part of the region but also countries that are adjacent or outside the region but also the countries adjoining the oceans look for a mechanism in accordance with a rule based order International law that would protect the rights of the nations to pursue global commons was emphasized This timely volume presents a collection of articles by leading scholars on the subject from the region It addresses the faultlines of both traditional and non traditional security issues Military modernization especially of the naval forces of a number of powers national ambitions of power projection and plans to build ports in strategic locations are exacerbating insecurity and greater arms race It also poses the question whether the Indo Pacific region will become a theatre of tension and instability or a contributor to peace and prosperity for the larger populations that reside herein Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka
