Thinking About Democracy Power Sharing And Majority Rule In Theory And Practice:

Thinking about Democracy Arend Lijphart, 2007-10-10 Arend Lijphart is one of the world's leading and most influential political scientists whose work has had a profound impact on the study of democracy and comparative politics. *Thinking about Democracy* draws on a lifetime's experience of research and publication in this area and collects together for the first time his most significant and influential work. The book also contains an entirely new introduction and conclusion where Professor Lijphart assesses the development of his thought and the practical impact it has had on emerging democracies. This volume will be of enormous interest to all students and scholars of democracy and comparative politics and politics and international relations in general. *The Palgrave Encyclopedia of Peace and Conflict Studies* Oliver P. Richmond, Gözim

Visoka, 2022-06-21 This encyclopaedia provides a comprehensive overview of major theories and approaches to the study of peace and conflict across different humanities and social sciences disciplines. Peace and conflict studies (PCS) is one of the major sub-disciplines of international studies including political science and international relations and has emerged from a need to understand war-related systems and concepts and how to respond to it afterward. As a living reference work easily discoverable and searchable, the Palgrave Encyclopedia of Peace and Conflict Studies offers solid material for understanding the foundational historical and contemporary themes, concepts, theories, events, organisations and frameworks concerning peace, conflict, security, rights, institutions and development. The Palgrave Encyclopaedia of Peace and Conflict Studies brings together leading and emerging scholars from different disciplines to provide the most comprehensive and up-to-date resource on peace and conflict studies ever produced. *Political Political Theory* Jeremy Waldron, 2016-03-07 Political theorists focus

on the nature of justice, liberty and equality while ignoring the institutions through which these ideals are achieved. Political scientists keep institutions in view but deploy a meager set of value conceptions in analyzing them. A more political political theory is needed to address this gap. Jeremy Waldron argues. [National Integration and Rotational Presidency in Nigeria](#) Olumuyiwa Temitope Faluyi, 2023-10-27 This book engages literature and opinions of politicians, opinion leaders, religious leaders, lawyers and researchers on national integration in Nigeria. In addition to rotational presidency participants interviewed by the author also express views on other national integration measures in Nigeria. The monograph represents a critical work in the field making a significant contribution to the so far lacking literature of fieldwork and scholarship on rotational presidency in Nigeria. The monograph will benefit scholars, researchers, peace and conflict experts, politicians, students and other stakeholders on how national integration can be cultivated and consolidated. Its focus on the Fourth Republic ensures its relevance to the management of political tussles inherent to rotating power in a developing and federal country such as Nigeria.

Consociational Theory Rupert Taylor, 2009-03-20 Consociational theory explains how democratic stability is possible in culturally or ethnically segmented political systems. It is one of the most important theories in Comparative Politics and one of the most contested. This volume brings together the leading proponents and opponents of

consociational theory and conflict resolution *Queering Multiculturalism* Aret Karademir, 2018-09-15 Queering Multiculturalism argues for group specific rights for ethno cultural minorities but without ignoring that such rights may lead to ethnic chauvinism balkanization and the cultural marginalization of minorities within minorities such as ethnic LGBT people Thus it aims to construct a liberal theory of minority rights to accommodate ethno cultural diversity without destroying ethno sexual diversity and without privileging one type of minority group over another *Civic Parties in Divided Societies* Cera Murtagh, 2025-09-02 In Northern Ireland and Bosnia Herzegovina a new form of politics is emerging thirty years after conflict Despite ongoing polarization civic political parties those that reject ethnonationalism and organize around alternative identities and issues have formed endured and claimed political space Notably these parties have emerged within the context of consociational power sharing a political system explicitly designed to accommodate ethnonational groups The rise of civic politics challenges the dominant narrative of deeply divided societies Cera Murtagh explores how countries transition from armed conflict to issue based democracies highlighting both the institutional barriers that civic parties face and the opportunities they can seize Drawing on extensive fieldwork including more than one hundred semi structured elite interviews at critical political moments *Civic Parties in Divided Societies* is the culmination of over a decade s research on Northern Ireland and Bosnia Herzegovina and beyond How do societies move on from conflict not just to the cessation of violence but towards a fuller civic democracy And how do they do so when institutions have been put in place to manage the conflict by recognizing ethnonational identity *Civic Parties in Divided Societies* looks at how global political trends might shape the future of civic politics in societies rife with cleavages **Inspire and be inspired** , 2018-01-01 Without any doubt research is the driving force behind development and professionalization and a major reason why supervisors and coaches see it as the basis of their practices enhancing its credibility reliability and legitimacy Not surprisingly this reflects what they professionally pursue with their clientele to serve the development of individuals teams and organizations inspire them to optimise their potential and enhance their professional and personal growth *Social Theory and Practice* , 2021-04
