Thinking Through Painting Isabelle Graw, Daniel Birnbaum, Nikolaus Hirsch, Städelschule Frankfurt am Main. Institut für Kunstkritik, 2012-09-07 Introduction remarks on contemporary painting's perseverance Andr Rottmann Painting and atrocity the Tuymans strategy Peter Geimer Questions for Peter Geimer Isabelle Graw Response to Isabelle Graw Peter Geimer The value of painting notes on unspecificity indexicality and highly valuable quasi persons Isabelle Graw Questions for Isabelle Graw Peter Geimer Response to Peter Geimer Isabelle Graw New Music and the Crises of Materiality Samuel Wilson, 2021-07-04 This book explores the transformation of ideas of the material in late twentieth and early twenty-first century musical composition New music of this era is argued to reflect a historical moment when the idea of materiality itself is in flux Engaging with thinkers such as Theodor Adorno Sara Ahmed Zygmunt Bauman Rosi Braidotti and Timothy Morton the author considers music's relationship with changing material conditions from the rise of neo-liberalisms and information technologies to new concepts of the natural world Drawing on musicology cultural theory and philosophy the author develops a critical understanding of musical bodies objects and the environments of their interaction Music is grasped as something that both registers material changes in society whilst also enabling us to practice materiality differently Slow Painting Helen Westgeest, 2020-10-29 The abundance of images in our everyday lives and the speed at which they are consumed seems to have left us unable to critique them To rectify this situation artists such as Daniel Richter Jaune Quick to See Smith and Artur Zmijewski have demonstrated that painting is brilliantly equipped to produce slow images that enable encourage and reward reflection In this book Helen Westgeest attempts to understand how various forms of slow painting can be used as tools to interrogate the visual mediations we encounter daily Painting was expected to disappear in the digital age but through interactive painting performances and painting like manipulated photographs and videos Westgeest shows how photography video and new media art have themselves developed the visual strategies that painting had already mastered Moreover the fleeting nature of digital mass media appears to have unlocked a desire for more physically stable and enduring pictures like paintings Slow Painting charts how in a world where the constant quest for speed can leave us exhausted the appeal of this slower medium has only grown **PhotographyDigitalPainting** Carl Robinson, 2020-08-11 This anthology explores the connections between photography the digital and painting in contemporary art practices While there is much research being undertaken into the mediums under discussion as discrete concerns in the digital age there is little investigation into these in combination As photography the digital and painting frame the contemporary visual discourse a rigorous investigation into this relationship is much needed This book which continues the investigations begun with PaintingDigitalPhotography undertakes this by leading the research into questions of medium fluidity in contemporary visual art practices The contributors here are renowned artists senior academics theorists and younger researchers contributing to the field of study Their essays address a wide range of interrelated topics including AI generation of digital imagery

hyperreal photographic visions of the world the embodied experience of the painter and art practice that synthesises the three mediums amongst others This book will be of particular interest to scholars academics and researchers studying the associations of these mediums in the digital age **What Drawing and Painting Really Mean** Paul Crowther,2017-04-21 There are as many meanings to drawing and painting as there are cultural contexts for them to exist in But this is not the end of the story Drawings and paintings are made and in their making embody unique meanings that transform our perception of space time and sense of finitude These meanings have not been addressed by art history or visual studies hitherto and have only been considered indirectly by philosophers mainly in the phenomenological tradition If these intrinsic meanings are explained and further developed then the philosophy of art practice is significantly enhanced The present work accordingly is a phenomenology of how the gestural and digital creation of visual imagery generates self transformation through aesthetic space **Borderless Painting As Borderless Art** Sérgio B. Martins,2026 The artwork of Antonio Dias 1944 2018 uniquely captures the interwoven histories of Brazilian postwar realism and of European conceptualism in the 1960s and 1970s By tracking Dias s ever shifting works and circulation as he moved from Rio de Janeiro to Paris and then to Milan *Borderless Painting as Borderless Art* provides the first in depth study of the artist Sérgio B Martins uses Dias s trajectory as a lens to explore different approaches to avant gardism and its crisis in Brazil France and northern Italy weaving in the perspectives of figures such as Hélio Oiticica Harald Szeemann Pierre Restany Giulio Paolini and Tommaso Trini as well as the Fluxus movement The book ultimately argues that Dias pitted his formation in a semi peripheral avant garde against a post avant gardist milieu where commodity culture and market relations were far more pervasive and determinant vis vis the arts scene *Radical Philosophy* ,1998 **Arts Magazine** ,1975 *Arts Digest* ,1975 **Painting History** Patrick D.
