Principles of Zen Training for Educational Settings Hugh Schuckman, 2024-10-31 This book provides insights into new developments and persistent traditions in Zen teacher training and education through the use of historical archival research and original interviews with living Zen Masters It argues that some contemporary Euro American social values of gender equality non discrimination rationality ecumenicism and democracy permeate not only the organizational aspects of the Kwan Um School of Zen case study but soteriological processes and goals of the training more widely Each chapter showcases the ways important facets of Zen education from meditation to curriculum development to school management have absorbed Euro American cultural and social ideals in both community and educational practices Giving dedicated scholarly attention and conceptualising new adaptations in transnational Zen communities it constitutes an important and timely addition to the literature and will appeal to researchers and scholars of religion and education Asian pedagogies contemporary Buddhism transnational Zen and Zen education Jesus Meets the Buddha James T. Kim, 2019-03-13 Does any one religion have all the answers Or must we find the answers to life's questions within ourselves What would the Buddha think of Jesus message of unconditional love Would the Buddha and Jesus have any common ground In Jesus Meets the Buddha author James Kim attempts to answer these questions and many more by exploring the histories and beliefs of two of the world's major religions Christianity and Buddhism Driven by his own desire to answer questions such as Who am I and Why am I here Kim builds on the discourses of the world's greatest thinkers to examine religions and philosophies including Judaism Hinduism Confucianism and even Voodoo His conclusion is that every religion in existence today is a precious gem of human history and an irreplaceable facet of the giant mosaic that makes up our world He argues that by

combining Jesus teaching with the long held ethical and religious traditions of the East we can build a meaningful unity for humankind Provocative and well researched Jesus Meets the Buddha is a must read book for anyone interested in the world s religions or who is looking for their own answers about their place in the universe *Training Your Mind To Realize Its Potential* Paul Davies,2015-07-13 In 1984 at aged 18 Paul Davies was introduced to personal motivation and higher consciousness teachings After 30 years of personal development related studies and practices Paul shares through a book trilogy a possibility how each one of us can realize our pure potentiality Training your mind to realize it s potential is the 2nd book in the trilogy which conveys the benefits of spiritual practices in our daily lives Paul tested these principles in running a number of successful and award winning business enterprises and shows tangibly The way of success is by kindness integrity fair dealing and service

A Critique of Western Buddhism Glenn Wallis,2018-09-06 This book is open access and available on www.bloomsburycollections.com It is funded by Knowledge Unlatched What are we to make of Western Buddhism Glenn Wallis argues that in aligning their tradition with the contemporary wellness industry Western Buddhists evade the consequences of Buddhist thought This book shows that with concepts such as vanishing nihility extinction contingency and no self Buddhism like all potent systems of thought articulates a notion of the real Raw unflinching acceptance of this real is held by Buddhism to be at the very core of human awakening Yet these preeminent human truths are universally shored up against in contemporary Buddhist practice contravening the very heart of Buddhism The author s critique of Western Buddhism is threefold It is immanent in emerging out of Buddhist thought but taking it beyond what it itself publicly concedes negative in employing the democratizing deconstructive methods of Fran ois Laruelle s non philosophy and re descriptive in applying Laruelle s concept of philofiction Through applying resources of Continental philosophy to Western Buddhism A Critique of Western Buddhism suggests a possible practice for our time an anthropotechnic or religion transposed from its seductive but misleading idealist haven *Buddha's Möbius Strip* Ja-Sung Oh,2021-01-30 1 Now mankind is fighting against the Corona virus Everyday a lot of people are dying dead and suffering by the Corona virus circulating the world Heavier suffering and burden are given to the economical weak This is a very serious problem to be solved soon However it is only a small tip of big problem we are facing today The more serious and hard to solve problem like Gordian knot is the environmental problems of earth revealing the symptoms such as the marine pollution destruction of forest desertification climatic change and so on accelerated by the financial capitalism and tribal egoism As philosopher Nietzsche said mankind becomes the disease of earth At this rate Homo sapiens will disappear before the great flower of Earth Democracy begins to bloom This terrible result is the product of ego centric small reason dichotomous reason namely instrumental reason Such selfish exclusive reason constructs the vertical system of knowledge vertical relationship of possession and vertical ruling relationship at any cost We can not avoid greed opposition deception distrust conflict violence and war It is because the self is the genius of the lie and deception so confabulates endlessly to justify and rationalize himself

or herself in order to maximize his or her benefits and pleasures We can not avoid the conflict between two monadic selves conflict between two logoi conflict between two benefits and conflict between two justifications So we can make a long list of cases of tragic violences and wars caused by the political leaders who was just a greedy liar swindler intellectual dwarf and sly hypocrite However the direction and way for the collective intelligence are clear and distinct It is inevitable to solve the pains of mankind and all living bodies of earth 2 The collective intelligence of mankind has explored and tried to discover the ultimate truth and to actualize the democracy incessantly Science and philosophy are the tracks of hard fighting of brave men in order to make the good world where the universal truth is alive in the justice and democracy The collective intelligence of mankind has achieved the incessant progress through the Copernican changes in scientific truth Science has escalated the status of human beings continuously in the universe All human beings are equal extremely precious and solemn Being allowed to parody Wittgenstein now it is time to keep silent about the affairs which are not coincident with the truth of science in order to keep the infinite value and dignity of human beings It is because the substantialization of false concepts allows all kinds of liars and swindlers to win the games pleasantly while justice keeps silent and human happy life and peace of earth are destroyed in the white screamings Contemporary great philosopher Deleuze overturns such false concepts decisively and opens new metaphysics and ethics based on the contemporary sciences Deleuze s philosophy of multiplicity and event is very close to Buddha s philosophy of Dharma and Middle Way which is also very scientific and practical Middle Way is the ultimate truth and it is the single unique solution to solve the problem of earth ultimately It is time we need to pay attention seriously on Deleuze and Buddha if we wish to live in justice democray freedom peace and happiness 3 This book compares the same points and different points with selected several keywords in the epistemology ontology and practical theory between Deleuze and Buddhism Both will go forward together for the democracy peace and happiness of earth Michel Foucault predicted that the 20th century will be considered as that of Deleuze which will never be a joke or an exaggeration We can enter into the Buddhism and come out of Deleuze and vise versa **Dharma Road** Brian Haycock,2023-06-23 This memoir and spiritual guide from an Austin Texas cab driver is the real deal good taxi and straight dharma Jack Kornfield bestselling author of The Wise Heart Brian Haycock was a cabdriver who happened to be a Buddhist During the course of his career he learned that each fare provided an opportunity to learn the life lessons of the Buddha So hop in and buckle up we re off on our journey to self discovery passing through the precepts the four noble truths taking a hard left to stop and get coffee where we ll learn a few breathing techniques to bolster our patience all the while watching for ambulances and bikers focusing our attention and awareness so that we can arrive at our destination in good time and in one piece Here are stories from everyday life that demonstrate how we can all benefit from a little Buddhist philosophy With each chapter focusing on a specific topic readers will learn to coast their way to building a life routine focusing the mind calming themselves with breathing exercises and much more Engagingly written Stephen Batchelor national bestselling author of Confessions of a

Buddhist Atheist Compassionate and entertaining David Brazier aka Dharmavidya author of The Feeling Buddha Amusing and wise Arthur Jeon author of City Dharma and Sex Love and Dharma Finding Love Without Losing Your Way Wise and witty and direct very Zen Also fun to read Sylvia Boorstein national bestselling author of Happiness is an Inside Job and That's Funny You Don't Look Buddhist Happiness Is a Smokin' Gun Ian Crowley, 2011-06-01 Happiness Is a Smokin' Gun is a practical guide for everyday life We all want more happiness but often go about getting it in the wrong way The first half of the book is about tackling our current states of thought This includes better problem solving techniques identifying and dealing with needless worrying and finding better ways to deal with negative emotions Through various examples and stories readers will get a glimpse of how to better their thinking which in turn will help change their current state of consciousness The second part focuses on the things that make us happy This comes down to Passion Success Love Solitude Meditation Sublimity and knowledge Each of these chapters comprises the reasons why we strive for these states of consciousness As human beings we are constantly working toward one of these avenues as they make us feel alive and in love with the world In the end we see that it is only our current state of thought that stands in the way of our own happiness It is our failure to let go of the past as well as our fears of the future that keeps us from embracing the happiness that is in the here and now

Mindful Politics Melvin McLeod, 2012-10-19 I've studied politics my entire life It's been because of my time working on this book that I've finally learned what's really important in politics So says Melvin McLeod editor of Mindful Politics a book that transcends Right and Left progressive and conservative to get to the heart of what matters how we can all make a positive difference in our complex political world This is not your typical political book It's not written at a fever pitch it doesn't use a good bad binary and it doesn't tout partisan policies Instead this timely collection addresses the less discussed but more important questions about politics What insight does religion have to offer politics How can we as concerned citizens move beyond the particulars of legislation and party affiliation and take direct action How amid divisive and challenging times can personal growth and effective advocacy take place together In short Mindful Politics offers the perspectives of 34 important authors and thinkers on how each of us right now can make the world a better place McLeod includes essays and insights from some of the brightest and most controversial lights of Buddhism and beyond Included are Thich Nhat Hanh Sam Harris author of The End of Faith The Dalai Lama Jerry Brown Pema Chodron Trungpa Rinpoche bell hooks Ezra Bayda Meg Wheatley and many more
