Summary - Thinking, Fast and Slow: Instant-Summary,2017-12-25 Thinking Fast and Slow A Complete and Detailed Summary The first chapter begins with Daniel Kahneman s description of two main characters of the book neither of which are people He refers to something that

he calls System 1 and System 2 System 1 is dedicated to thinking fast It almost solely relies on intuition and almost entirely disregards information System 1 is in control every time we do an activity that requires quick thinking and reactions For example System 1 is in control when we drive when we want to read other people's facial expressions when we answer to questions that require quick answers etc Kahneman states that System 1 is involuntary and operates entirely on its own System 2 thinks slowly and always relies on information and almost never on intuition System 2 is in control when we try to solve difficult math problem when we want to focus our attention on the voice of person in a room full of people when we fill in tax forms or during any other events that are based on awareness System 2 requires energy because it operates voluntarily Here Is a Preview of What You Will Get A summarized version of the book with approx 60 pages You will find the book analyzed to further strengthen your knowledge Fun multiple choice quizzes along with answers to help you learn about the book Get a copy and learn everything about Thinking Fast and Slow
