Mythmaking across Boundaries Züleyha Çetiner-Öktem, 2016-04-26 This volume explores the dynamics of myths throughout time and space along with the mythmaking processes in various cultures literatures and languages in a wide range of fields ranging from cultural studies to the history of art The papers brought together here are motivated by two basic questions How are myths made in diverse cultures and literatures And do all different cultures have different myths to be told in their artistic pursuits To examine these questions the book offers a wide array of articles by contributors from various cultures which focus on theory history space place philosophy literature language gender and storytelling Mythmaking across Boundaries not only brings together classical myths but also contemporary constructions and reconstructions through different cultural perspectives by transcending boundaries Using a wide spectrum of perspectives this volume instead of emphasising the different modes of the mythmaking process connects numerous perceptions of mythmaking and investigates diversities among cultures languages and literatures viewing them as a unified whole As the essays reflect on both academic and popular texts the book will be useful to scholars and students as well as the general reader

The Shek Kip Mei Myth Alan Smart, 2006-06-01 Alan Smart raises serious questions about the standard view that Hong Kong's mass public housing programme was a direct and humane response by the Government to the Shek Kip Mei fire Rather he argues that the Government's response to that fire was grudging and incremental rather than a sharp and radical turning point and that the security and stability of Hong Kong weighed as heavily possibly more so in the decisions than the predicament of the fire victims His research shows that a whole sequence of major fires after Shek Kip Mei and the political costs of the Mainland sending comfort missions to fire victims both before and after were needed to bring about the final commitment to provide mass public housing In his critical examination of the conventional position Professor Smart bases his case on a thorough reading of government records and provides a careful investigation into the origins of the public housing policy in Hong Kong This volume makes an important contribution to the postwar history of Hong Kong and is a significant addition to the study of its modern development

Beauvoir and Politics Liesbeth Schoonheim, Karen Vintges, 2023-10-30 Approaching Simone de Beauvoir's feminism and social commentary as a resource to understand our current crises Beauvoir and Politics A Toolkit brings together established and emerging scholars to apply her insights to gender studies political philosophy decolonisation intellectual history age theory and critical phenomenology The essays in this collection start from key concepts in Beauvoir's oeuvre and relate them to contemporary debates asking how her notion of ambiguity speaks to lived experiences that have been highly politicized in recent years such as pregnancy old age sexual violence and the exposure of black and brown bodies to police violence how myths inform our notions of collective national identities as well as notions of masculinity and femininity and how she provides conceptual tools that help to theorize the various political strategies that are used to challenge gendered and racialized systems of oppression These and other issues are central to this

critical appraisal of Beauvoir's legacy demonstrating the contemporary relevance of her thought as it diagnoses the present and looks toward change for a better future This book will be of great interest to undergraduate and postgraduate students looking to engage with the political content of Simone de Beauvoir's work and the timely application of her ideas

Religious Ideology and the Roots of the Global Jihad J. Turner, 2014-08-26 The events of 9/11 prompted questions as to the origins, nature and purpose of international jihadist organisations In particular why had they chosen to target the US and the West in general Turner's book provides a unique holistic insight into these debates taking into account historical perceptions and ideology as key factors *Kinesthetic City* SanSan Kwan, 2013-02-07 Kinesthetic City uses choreography as subject and method to explore how movement through particular spaces at precise moments can illuminate the communities in those places and times It examines the simultaneous persistence and mobility of the idea of Chineseness as it travels across a transnational network of Chinese cities

The New Human Rights Movement Peter Joseph, 2017-03-21 Society is broken We can design our way to a better one In our interconnected world self interest and social interest are rapidly becoming indistinguishable If current negative trajectories remain including growing climate destabilization biodiversity loss and economic inequality an impending future of ecological collapse and societal destabilization will make personal success virtually meaningless Yet our broken social system incentivizes behavior that will only make our problems worse If true human rights progress is to be achieved today it is time we dig deeper rethinking the very foundation of our social system In this engaging important work Peter Joseph founder of the world's largest grassroots social movement The Zeitgeist Movement draws from economics history philosophy and modern public health research to present a bold case for rethinking activism in the 21st century Arguing against the long standing narrative of universal scarcity and other pervasive myths that defend the current state of affairs The New Human Rights Movement illuminates the structural causes of poverty social oppression and the ongoing degradation of public health and ultimately presents the case for an updated economic approach Joseph explores the potential of this grand shift and how we can design our way to a world where the human family has become truly sustainable The New Human Rights Movement reveals the critical importance of a unified activism working to overcome the inherent injustice of our system This book warns against what is in store if we continue to ignore the flaws of our socioeconomic approach while also revealing the bright and expansive future possible if we succeed Will you join the movement Literary Canons and Religious Identity International Society for Religion, Literature, and Culture.
