TRIMESTER UPDATE: Report Cards

Report Card Academic Standards: Reviewing the report card documents & information from the district will be VERY helpful in interpreting your child's report card. **"Meets"** means that the student does that standard **INDEPENDENTLY** and **CONSISTENTLY**. **"Developing"** means that the student sometimes demonstrates this skill independently, - completely on their own without help - but sometimes requires assistance. This is a very normal place to be and it means that your child is developing toward meeting the standard consistently! This is an area where your child can keep practicing, but is by no means a bad thing! **"Does not meet"** means that the student does not independently demonstrate the skill **at this time**. (Growth mindset! ☺)

Report Card Student Skills: Reviewing the rubric for student skills will be very helpful as well. **"Regularly"** means that they do this skill independently and consistently. **"Occasionally"** means they demonstrate the skill sometimes, but sometimes require assistance or reminders. **"Not at this time"** means that they are not currently demonstrating this skill on their own.

Report Card Comments: For your knowledge, each student was given a goal in the report card comments, as per the district policy, as well as in the interest of having a growth mindset and always continuing to grow and improve! ☺

Organizational Literacy for Educators Jason Earle, Sharon D. Kruse, 1999-02-01 Teachers and administrators who understand the politics in schools can operate more successfully to facilitate change This text teaches educators to identify and influence common social patterns that affect their work in school organizations It combines literature from educational leadership and foundations of education to provide a comprehensive introduction to organizational theories related to schooling A particularly notable feature is that in addition to traditional bureaucratic and political approaches there is a substantial focus on recent critical and feminist theories Extensive use of narrative vignettes makes the theories accessible for prospective and practicing teachers Practice cases and exercises assist students in applying the theories to their own organization settings Assuming little prior knowledge of theories about school organizations this volume is intended as a text for introductory graduate courses as well as for advanced undergraduate courses and groups such as site based management teams and district professional development committees
