Threats Without Enemies Gary Smith, St. John Kettle, 1992

The Geopolitics of Australia's Regional Relations

D. Rumley, 2001-06-30 The origins of this book go back 30 years to the stimulation and interest generated by the political geography seminars led by John House at the University of Newcastle Upon Tyne I was very fortunate to graduate among its extremely capable sporty and enthusiastic class of 68 from where several academic geographers emerged Equally fortunately some of them and their predecessors had already blazed a trail to undertake graduate studies in Canada At the University of British Columbia I was supervised at different times by Julian Minghi and Victor Prescott both of whom are not only extremely capable academics but are also very fine people I owe an enormous debt to John Julian and Victor and to the British and Canadian taxpayers who provided financial support for my University studies In 1974 I began an academic career at the University of Western Australia where I have been ever since save for a two year period from 1991-3 as Professor of Australian Studies in the Department of International Relations at the University of Tokyo Viewing Australia and the Asia Pacific region from this different perspective within an extremely supportive Japanese environment had a profound impact I am especially grateful for the support provided by so many Japanese academic colleagues and friends beginning as early as 1976 Three individuals deserve special mention for their help guidance and enduring friendship George Ohshima Hiroshi Tanabe and Akihiro Kinda

Australian Foreign Policy

Michael O'Keefe, 2023-08-10 How does Australia's unique geographical cultural and historical position influence its approach to foreign policy What key challenges does Australia face on the world stage and how can it overcome them Reflecting the messy reality of foreign policy decision making this book helps you to understand the changes and continuities in Australia's approach For example does the US withdrawal from Vietnam in 1973 and collapse of South Vietnam continue to cast a shadow over Australian foreign policy or is it relevant only in understanding the dynamics of the cold war Using an Australian Strategic Culture framework O'Keefe sheds light on the characteristics that make Australia behave in a way different to any other country and equips you with analytic skills to understand the main debates such as In what sense could Australia be seen as a good international citizen Have national interests trumped global responsibilities How does the intersection between civil society and public opinion interact with foreign policy making This book is essential reading if you are a student of Australian foreign policy as well as of broader Australian domestic politics and international relations

Australia's 'war on terror' Discourse Kathleen Gleeson, 2016-04-08

Too often existing literature has conflated the discourses that enabled the War on Terror ignoring the contextual specificities of the states that make up the Coalition of the Willing Australia's war on terror Discourse fills this gap by providing a full and sustained critical analysis of Australian foreign policy discourse along with the theoretical synthesis for a specific model of critical discourse analysis of the subject The language of then Prime Minister Howard is the primary focus of the book but attention is also paid to the language of key ministers political opponents and other prominent actors The voices of those who

challenged the dominant discourse are also considered to shed light on the ways in which discourses can be destabilised Kathleen Gleeson shows how Howard successfully invoked narratives of identity and sovereignty that resonated with his audience and promoted his reworked narrative of Australia whilst facing dissent from many actors who voiced their opposition most successfully when they capitalised on inconsistencies within the discourse **The Meaning of**

Environmental Security Jon Barnett, 2001 This book is a comprehensive critical discussion of the new idea of environmental security Jon Barnett looks at links between environmental degradation and national security But the meaning of the concept is ambiguous and an examination of its various interpretations and applications reveals much about the state of global environmental politics Barnett argues that environmental security is ultimately driven more by the power of security makers than by the need to address environmental problems By systematically uncovering the deficiencies of existing discourses he develops an alternative critical Green approach with practical implications **Non-traditional Security Issues in**

Southeast Asia Andrew Tian Huat Tan, J. D. Kenneth Boutin, 2001 The contributions to this volume covering the areas of Globalisation and Security Regional Institutions and Security Governance in Plural Societies and Security and Environmental Security present stimulating analyses and insights to various non traditional security issues that are of scholarly and policy relevance to Southeast Asia **BOOK JACKET Pacific Research**, 1992 **Australia's Defence Policy and South-East**

Global Geopolitical Change and the Asia-Pacific Dennis Rumley, 1996 This work looks at events which have had fundamental implications for the geopolitical relations in and with the Asia Pacific region It covers issues such as regional definition the emergence of regional integration the role of Japan China Russia and India and security and trade

Australia in the World Gary Smith, Dave Cox, Scott Burchill, 1996 Australia in the world an introduction to Australian foreign policy **International Relations in the New Century** Marianne Hanson, William T. Tow, 2001 This edited volume links selected international relations IR issues to various dimensions of Australian foreign policy It represents one of the first efforts to integrate specifically Australian based thinking about such diverse global problems into a readily understandable guide of how they will affect our lives in the early twenty first century Such emerging challenges as globalisation human rights and environmental politics are considered in conjunction with more traditional but no less significant policy questions of alliance politics and arms control Most of the issues considered in this book are also considered in light of enduring theoretical questions that continue to dominate the IR field such as the realist liberal debate and how national interest is factored into policy formulation **Overland**, 2004 The Changing Role of the Military in Papua New Guinea Ronald James May, 1993 **Australian Books in Print 1999** K G Saur Books, 1999-04 Excellent coverage essential to worldwide bibliographic coverage American Reference Books Annual This comprehensive reference provides current finding ordering
