Let There Be Light Doug Irmen,2021-05-21 The potentially catastrophic problems we face in the world today are the result of a massive spiritual failure Too many of us appear to have forgotten the real purpose we were born for in the first place which at its most basic level is to love and nurture ourselves and the earth But we re not really loving and nurturing when we cause the environment to decline and the climate to become inhospitable when we keep wasting money and resources by amassing petrifying weapons to fight horrific wars when we fail to take care of the weak and when we demonize each other with so much vitriol that nothing effective seems to get done We are out of control as a species Let There Be Light Saving Ourselves and Our Planet Through a Global Social Compact proposes that we tame the savageness of man by using the internet to adopt a universal Social Compact a grass roots spiritual and political movement that would operate as a Light Network to connect like minded people around the world in an urgent crusade to reverse the course their governments and societies have put them on Our Social Compact will funnel the core goodness we all have within us into a metaphorical ball of Light that beams out the conscience of mankind A conscience that says NO MORE to our current failure to get along and cooperate A conscience that will overwhelm our governments and societies with the message that NOW IS THE TIME for us to truly achieve the universal desire of mankind which is first of all to survive and then to come together to love and respect all life on earth The Light Network website www.lightnetwork.me is now under construction Although the Light Network will not be a formal legal entity its work will nonetheless be continuously felt throughout the world It will be a relentless force that tracks the issues that threaten our world and then shines its spiritual message onto the efforts that will be essential if we are to take back control of our destiny **Catalog of Copyright Entries. [Nature Nurture Nourish](#) Will Cowell,2022-08-11 I will share the inspirations that shape this story as a cosmology into a deeper reflection of what it is to choose our way and evolve continuously in nature nurture and nourishment moving from immense suffering through tremendous love and beyond with persistent presence These stories are in part a personal memoir a collection of incredible authors who came before me and a compassionate expedition exploring the past present and perennial All of which follow a soulful quest into self awareness and our potential for a fulfilled consciousness in becoming more aware awake alert and alive in the distinct dark and divine worlds we exist and play in I have come to better appreciate the natural world as the process of evolving and creating itself When I seek questions answers or wisdom ultimately I look for natural metaphors and signals in our common elements of nature space water fire air and earth The first source of wisdom is nature itself and that wisdom is perennial as it keeps evolving We will delve into the sacred space between all things as one of the common elements and is known in Japan as Ma and Sanskrit as Akash I am no saint as I have experimented with the three worlds in the divine dark and distinct I have strived to make the most balanced choices and I

sometimes choose excess over temperance egoism over humility and agitation over patience When I am persistently present I can make more balanced choices and I do make them and then I do not suspire perspire and transpire The manuscript expands on the evolution of a vision I experienced while returning from my hermitage on the Pacific northwest coast A vision can be like the universe in that it is evolving through alchemical reactions of self creating atoms molecules and cells Words evolve in similar ways from letters sounds sentences and phrases into great stories and deeper more complex meanings and cosmologies Aldous Huxley said Experience is not what happens to a person it is what a person does with what happens to them He paved the way for inclusion and transcendence amongst all cultures and generations and it is because of his sharing stories that we can carry on the development and participation of perennial wisdom tradition philosophy and science Our appetites change over time tastes evolve and we hopefully come to better appreciate the company around our banquet table in the garden and beyond Engaging with others becomes more important than getting a full belly as we find simpler ways to experience nature nurture and nourishment I welcome all who are willing to share in hospitality and possibly even a good squabble We are never truly alone there are always realms of energy available to us for relationships in our communities There are unseen energies that help manifest our dreams call them conscious agents conscience angels or rascals the great news is that we get to choose which energy we participate with in a deliberate determined detailed destiny I am learning to choose chances for change participating and expanding in collective consciousness while seeking the meandering mystic
