Walmart 2015 Manual:

Labor Contestation at Walmart Brazil Scott B. Martin, João Paulo Cândia Veiga, Katiuscia Moreno Galhera, 2021-09-10
This book explores how and why the labor practices of the world's largest employer supermarket giant Walmart were contested by unions and government regulators as it expanded to Latin America starting in the 1990s. With an in-depth case study of Brazil and a comparative chapter examining Argentina, Chile, and Mexico, this book analyzes the problematic encounter between diffusion of home office anti-labor practices and evolving national institutional contexts that are quite varied and in some cases enable considerable resistance by unions and/or regulators. Walmart's repressive familial and anti-union model is found to generate costs and conflicts that contributed to its unprofitability and ultimate exit from Brazil in 2018. This experience contrasted with country situations where Walmart's overall competitive and labor and human resource practices fit better with national markets and institutions underlines the brittle problematic nature of diffusionist corporate models lacking adaptive capacity to significant cross-national variations across host countries.

Mergers, Acquisitions, and Other Restructuring Activities Donald DePamphilis, 2019-09-04
Mergers, Acquisitions, and Other Restructuring Activities: An Integrated Approach to Process, Tools, Cases, and Solutions. Tenth Edition is the most comprehensive and cutting-edge text available on the subject. Supported by recent peer-reviewed academic research, this book provides many recent notable deals, precedent-setting judicial decisions, government policies and regulations, and trends affecting MAs as well as takeover strategies and tactics. Today's policies, politics, and economics are reflected in the book's 40 case studies, 90% of which involve deals either announced or completed during the last several years. These cases represent friendly, hostile, highly leveraged, and cross-border transactions in ten different industries involving public and private firms and those experiencing financial distress. Sections discuss an overview of MAs, key regulations, common strategies and tactics, how managers may choose a business strategy from available options, valuation methods, and basic financial modeling techniques; the negotiating process; how deal structuring and financing are inextricably linked; how consensus is reached during the bargaining process; the role of financial models in closing the deal; and strategic growth options as alternatives to domestic MAs. Provides a rigorous discussion of the strengths and limitations of financial modeling as applied to MA and how these models can be applied in various areas. Includes new academic research and updated revised case studies. Presents updated MA tactics and strategies along with court cases and new regulations governing business combinations, valuation methodologies, and financing.
