The Starfish And The Spider:

The Starfish and the Spider Ori Brafman, Rod A. Beckstrom, 2006 If you cut off a spider's leg it's crippled If you cut off its head it dies But if you cut off a starfish's leg it grows a new one and the old leg can grow into an entirely new starfish Some organisations are as decentralised as the starfish with no control or grand strategy such as Craigslist and Napster who both were originally run by their customers This new book proves that this type of leadership is primed to take over the world Major companies are starting to decentralise with great results This is a guide to the theory behind decentralisation

The Starfish and the Spider Ori Brafman, Rod A. Beckstrom, 2006-10-05 If you cut off a spider's leg it's crippled if you cut off its head it dies But if you cut off a starfish's leg it grows a new one and the old leg can grow into an entirely new starfish What's the hidden power behind the success of Wikipedia Craigslist and Skype What do eBay and General Electric have in common with the abolitionist and women's rights movements What fundamental choice put General Motors and Toyota on vastly different paths How could winning a Supreme Court case be the biggest mistake MGM could have made After five years of ground breaking research Ori Brafman and Rod Beckstrom share some unexpected answers gripping stories and a tapestry of unlikely connections The Starfish and the Spider argues that organizations fall into two categories traditional spiders which have a rigid hierarchy and top down leadership and revolutionary starfish which rely on the power of peer relationships The Starfish and the Spider explores what happens when starfish take on spiders such as the music industry vs Napster Kazaa and the P2P services that followed It reveals how established companies and institutions from IBM to Intuit to the US government are also learning how to incorporate starfish principles to achieve success The book explores How the Apaches fended off the powerful Spanish army for 200 years The power of a simple circle The importance of catalysts who have an uncanny ability to bring people together How the Internet has become a breeding ground for leaderless organizations How Alcoholics Anonymous has reached untold millions with only a shared ideology and without a leader The Starfish and the Spider is the rare book that will change how you understand the world around you

the entire team to unleash their full potential The joy and vigor coming from a collective strength intelligence and skill in the community of leaders not only brings greater potency but better yields for your ministry What would it be like to see this kind of healthy leadership reproduced into the second third and fourth generation on multiple strands Leveraging the metaphor Ori Brafman popularized in his NYT best selling book *The Starfish and the Spider* Rob Wegner Lance Ford and Alan Hirsch show How to take a close look at your church s organizational structure and how to adapt instead of simply adopt a certain kind of structural approach How churches can function without a rigid central authority making them nimbler in reacting to external forces How seeding starfish networks inside today s churches will prepare the church of tomorrow to be agile while maintaining the accountability to be effective *The Starfish and the Spirit* is about creating a culture where church leaders view themselves as curators of a community on a mission not the source of certainty for every question and project It s about creating a team of humble leaders in the middle of the church not at the top leaders who naturally reproduce multiple generations of leaders from the middle out

The Rebirth of Education Lant Pritchett,2013-10-14 Despite great

progress around the world in getting more kids into schools too many leave without even the most basic skills In India s rural Andhra Pradesh for instance only about one in twenty children in fifth grade can perform basic arithmetic The problem is that schooling is not the same as learning In The Rebirth of Education Lant Pritchett uses two metaphors from nature to explain why The first draws on Ori Brafman and Rod Beckstrom s book about the difference between centralized and decentralized organizations The Starfish and the Spider Schools systems tend be centralized and suffer from the limitations inherent in top down designs The second metaphor is the concept of isomorphic mimicry Pritchett argues that many developing countries superficially imitate systems that were successful in other nations much as a nonpoisonous snake mimics the look of a poisonous one Pritchett argues that the solution is to allow functional systems to evolve locally out of an environment pressured for success Such an ecosystem needs to be open to variety and experimentation locally operated and flexibly financed The only main cost is ceding control the reward would be the rebirth of education suited for today s world
