The Tainted Desert The Tainted Desert:

The Tainted Desert Valerie Kuletz,1998 The Tainted Desert documents the controversies surrounding the Yucca Mountain project America's first large scale national high level nuclear waste site built at a cost of billions of taxpayer dollars and located in Nevada less than 100 miles from Las Vegas The Tainted Desert Valerie Kuletz,1998 Through Post-Atomic Eyes Claudette Lauzon,John O'Brian,2022-03-30 What does it mean to live in a post atomic world Photography and contemporary art offer a provocative lens through which to comprehend the by products of the atomic age from weapons proliferation nuclear disaster and aerial surveillance to toxic waste disposal and climate change Confronting cultural fallout from the dawn of the nuclear age Through Post Atomic Eyes addresses the myriad iterations of nuclear threat and their visual legacy in the twentieth and twenty first centuries Whether in the iconic black and white photograph of a mushroom cloud rising over Nagasaki in 1945 or in the steady stream of real time video documenting the 2011 meltdown at the Fukushima Daiichi nuclear power plant atomic culture and our understanding of it is inextricably constructed by the visual This book takes the image as its starting point to address the visual inheritance of atomic anxieties the intersection of photography nuclear industries and military technocultures and the complex temporality of nuclear technologies Contemporary artists contribute lens based works that explore the consequences of the nuclear and its afterlives in the Anthropocene Revealing through both art and prose startling new connections between the ongoing threat of nuclear catastrophe and current global crises Through Post Atomic Eyes is a richly illustrated examination of how photography shapes and is shaped by nuclear culture *The Poetics and Politics of the Desert* Catrin Gersdorf,2009 This study explores the ways in which the desert as topographical space and cultural presence shaped and reshaped concepts and images of America Once a territory outside the geopolitical and cultural borders of the United States the deserts of the West and Southwest have since emerged as canonical American landscapes Drawing on the critical concepts of American studies and on questions and problems raised in recent debates on ecocriticism The Poetics and Politics of the Desert investigates the spatial rhetoric of America as it developed in view of arid landscapes since the mid nineteenth century Gersdorf argues that the integration of the desert into America catered to the entire spectrum of ideological and political responses to the history and culture of the US maintaining that the Americanization of this landscape was and continues to be staged within the idiomatic parameters and in reaction to the discursive authority of four spatial metaphors garden wilderness Orient and heterotopia **Perversions of Justice** Ward Churchill,2003 Examines the faulty reasoning employed to legislate colonial control over North America's indigenous peoples and their lands *The Desert Encyclopedia* Robert Hauptman,2024-08-06 This reference work is the first English language A Z compendium on all topics related to deserts including geography geology meteorology climatology hydrology botany zoology anthropology art music film culture sports as well as the specific and diversely different deserts that one finds in all parts of the world Definitions explanations and clarifications will be
