The Studio Whitechapel Documents Of Contemporary Art:

The Studio Jens Hoffmann, 2012-03-02 The evolution of studio and post studio practice over the last half century With the emergence of conceptual art in the mid 1960s the traditional notion of the studio became at least partly obsolete Other sites emerged for the generation of art leading to the idea of post studio practice But the studio never went away it was continually reinvented in response to new realities This collection expanding on current critical interest in issues of production and situation looks at the evolution of studio and post studio practice over the last half century In recent decades many artists have turned their studios into offices from which they organize a multiplicity of operations and interactions Others use the studio as a quasi exhibition space or work on a laptop computer mobile flexible and ready to follow the next commission Among the topics surveyed here are the changing portrayal and experience of the artist s role since 1960 the diversity of current studio and post studio practice the critical strategies of artists who have used the studio situation as the subject or point of origin for their work the insights to be gained from archival studio projects and the expanded field of production that arises from responding to new conditions in the world outside the studio The essays and artists statements in this volume explore these questions with a focus on examining the studio s transition from a workshop for physical production to a space with potential for multiple forms of creation and participation **London Art Worlds** Jo

Applin, Catherine Spencer, Amy Tobin, 2017-12-14 The essays in this collection explore the extraordinarily rich networks of international artists and art practices that emerged in and around London during the 1960s and 70s a period that saw an explosion of new media and fresh attitudes and approaches to making and thinking about art The contributors to *London Art Worlds* examine the many activities and movements that existed alongside more established institutions in this period from the rise of cybernetics and the founding of alternative publications to the public protests and new pedagogical models in London s art schools The essays explore how international artists and the rise of alternative venues publications and exhibitions along with a growing mobilization of artists around political and cultural issues ranging from feminism to democracy pushed the boundaries of the London art scene beyond the West End s familiar galleries and posed a radical challenge to established modes of making and understanding art Engaging wide ranging and original *London Art Worlds* provides a necessary perspective on the visual culture of the London art scene in the 1960s and 70s Art historians and scholars of the era will find these essays especially valuable and thought provoking In addition to the editors contributors to this volume are Elena Crippa Antony Hudek Dominic Johnson Carmen Juli Courtney J Martin Lucy Reynolds Joy Sleeman Isobel Whitelegg and Andrew Wilson *War and Peace in the Worlds of Rudolf H. Sauter* Jeffrey S. Reznick, 2022-03-01

War and Peace in the Worlds of Rudolf H Sauter is the first book to examine the creative life and worlds of Rudolf H Sauter 1895 1977 the German born artist poet cultural observer and nephew of the famed novelist John Galsworthy Revealing him to be a creative figure in his own right it examines his early life as a German immigrant in Britain his formative years during the run

up to the Great War his wartime internment as an enemy alien and the postwar development of his intriguing body of artistic and literary work Placing Sauter and his creative life in the historical contexts they have long deserved this life story opens a window onto subjects of war love memory travel and existential concerns of modern times

The Routledge Companion to Art and Politics Randy Martin, 2015-02-11 The Routledge Companion to Art and Politics offers a thorough examination of the complex relationship between art and politics and the many forms and approaches the engagement between them can take The contributors a diverse assembly of artists activists scholars from around the world discuss and demonstrate ways of making art and politics legible and salient in the world As such the 32 chapters in this volume reflect on performing and visual arts music film and new media as well as covering social practice community based work conceptual interventionist and movement affiliated forms The Companion is divided into four distinct parts Conceptual Cartographies Institutional Materialities Modalities of Practice Making Publics Randy Martin has assembled a collection that ensures that readers will come away with a wider view of what can count as art and politics where they might find it and how it moves in the world The diversity of perspectives is at once challenging and fortifying to those who might dismiss political art on the one hand as not making sufficient difference and on the other to those embracing it but seeking a means to elaborate the significance that it can make in the world The Routledge Companion to Art and Politics brings together a range of issues and approaches and encourages critical and creative thinking about how art is produced perceived and received
