the Sunni versus Shia violence in today's Iraq As these cases illustrate lethal violence does not always come at the hands of outsiders or foreigners Rather it can just as easily come at the hand of someone who once was considered a friend Killing Our Neighbors employs a multi-sited approach and multi-vocal ethnography to examine how once peaceful neighbors become transformed into perpetrators and victims of lethal violence It engages with a set of interlocking case studies in northern Kenya focusing on sometimes peaceful sometimes violent interactions between Samburu herders and neighboring groups interweaving Samburu narratives of key violent events with the narratives of neighboring groups on the other side of the same encounters The book is on one hand an ethnography of particular people in a particular place vividly portraying the complex and confusing dynamics of interethnic violence through the lives words and intimate experiences of individuals variously involved in and affected by these conflicts At the same time the book aims to use this particular case study to illustrate how the dynamics in northern Kenya provides comparative insights to well-known compelling contexts of violence around the globe Provided by publisher

Astrological Practice of Physick Joseph Blagrove, 2010-02 Contrary to modern beliefs the medieval world was not one of superstition and ignorance True they lacked what we know as science but on the other hand they were in possession of a coherent philosophy of life handed down to them from the Greeks and Romans which had been further hammered out in a thousand ways over the course of centuries When luck was with them the period was above all poor medieval peoples were surprisingly successful in dealing with the problems of everyday life With minds open we come to the medieval world as if it was a strange alien planet Because their philosophy was different their observations were different and therefore their solutions were different Some were good Some were not The best of them are worthy of our attention for they can teach us much The author Joseph Blagrove 1610-1682 was a country doctor who lived in Reading England in part as he lacked the license that would let him practice openly in London Fundamentally he was an astrological herbalist To this he brought an eclectic mix of observation experimentation folk knowledge and his own unique genius Free of modern conceptions he was able to view and treat the diseases of his day in ways that were revolutionary
