Women at the Hague Jane Addams, 2015-09-27 Excerpt from *Women at the Hague The International Congress of Women and Its Results* The following pages give an account of the International Congress of Women convened at The Hague in April 1915 and of the journeys undertaken by two delegations from that Congress Much of the material has already appeared in *The Survey* and is obviously journalistic in character It may be of value however during these days of much war correspondence as a report of European conditions from the point of view of that peace sentiment which survives in the midst of every war but which is not easily uncovered If an apology were needed for putting such slight material into a book it may be stated that the widespread interest in the separate articles seemed to justify presenting them in convenient form It is further hoped that this recital by three American women may correct the impression made upon the public by the contradictory accounts given through the press and that the reader may become interested in the official report of the Congress About the Publisher Forgotten Books publishes hundreds of thousands of rare
