a narrative that blurs the lines between nonfiction and fiction Steinbeck's *Uneasy America* is the first collection of critical scholarship devoted to *Travels with Charley in Search of America* John Steinbeck's best selling late career travel memoir In 1960 Steinbeck was a renowned man of American letters Many considered him America's troubadour of ordinary people the conscience of the country But weakened by two small strokes and anxious that he had lost touch with America he embarked on a cross country road trip accompanied by his wife's standard poodle Charley Two years later he published *Travels with Charley* to popular acclaim and robust sales Throughout this narrative Steinbeck insists that all of our perceptions are warped by personality history and society And while this hybrid and experimental book has long been accepted as an accurate account of his journey journalists and scholars agree that the narrative is part factual part fiction America as seen through Steinbeck's particular warp The work is long overdue for scholarly assessment Steinbeck's *Uneasy America* explores three main topics Part 1 explores genre and form to consider the degree to which the work is fiction or nonfiction Part 2 assesses Steinbeck's increasingly bleak assessment of America almost a jeremiad that warns citizens of ecological excess and political apathy Part 3 focuses on *Travels with Charley* as a road text travel adventure and literary influence This volume's authors offer rich scholarly insights and a wealth of stories facts and anecdotes about Steinbeck and the adventures and misadventures he and Charley met on the road Lively and groundbreaking the collection both enlightens and enlivens discussions of Steinbeck and of the twentieth century American book world CONTRIBUTORS Danica E. The Destructive Power of Family Wealth Philip Marcovici, 2016-12-12. Wealth owners are responsible for more than just assets. **The Destructive Power of Family Wealth** offers thoughtful, holistic planning to ensure that your wealth remains a positive force for your family. While today's families have become global and the world has become smaller and more mobile, we have not yet become immune to the problems wealth poses to the family unit. This book provides authoritative guidance on family wealth management with an emphasis on both family and wealth. Global taxation regimes, changing bank secrecy laws, asset protection, and other critical issues are examined in depth to assist wealth owners in planning, and the discussion includes details on the essential tools that aid in the execution of any wealth management strategy. More than a simple financial planning guide, this book also delves into the psychology of wealth and the effect it has on different family members. Wealth destroys families every day, and smart management means maintaining the health of the family as much as it means maintaining and expanding wealth. Family wealth brings advantages, but it also carries a potential for destruction. Wealth owners have a responsibility to their families and to themselves, and this book provides the critical guidance you need to get it right, whether you are part of a wealth-owning family or are an advisor to wealth-owning families. Learn how careful planning can prevent family strife. Protect assets from risks ranging from divorce to political upheaval. Explore the many tools that facilitate secure wealth management. Discover how changing global regulations affect wealth. Understand how private banks and other advisors work. Uncover challenges faced by the wealth management industry. Find out how to work with advisors and to manage costs while ensuring efficient and effective outcomes. Families at all levels of wealth are vulnerable to shifting economic climates, evolving regulatory issues, asset threats, and more. Any amount of wealth is enough to shatter a family, but deeply intentional planning based on thoughtful consideration is the key to keeping destructive forces at bay. **The Destructive Power of Family Wealth** provides expert guidance and a fresh perspective to help you maintain both family and wealth. For those in the wealth management industry and for other advisors to wealth-owning families, **The Destructive Power of Family Wealth** contains insight on the needs of today's wealth-owning families, ways in which the tools of wealth planning address those needs, and guidance on what it takes to be a successful, trusted family advisor. **More Than Money** Michael A. Cole, 2017-03-31. A new, more comprehensive approach to long-term family wealth management. **More Than Money** provides
